# AGENDA FOR A MEETING OF THE FINANCE/INVESTMENT COMMITTEE OF THE VALLECITOS WATER DISTRICT MONDAY, DECEMBER 21, 2020 AT 4:00 P.M. VIA TELECONFERENCE

#### NOTICE TO THE PUBLIC

Due to the evolving situation with the COVID-19 Novel Coronavirus and Executive Order N-35-20, so long as state or local public health officials have imposed or recommended social distancing measures Vallecitos Water District will hold future meetings via teleconferencing and allow members of the public to observe and address the meeting telephonically or otherwise electronically. During this period of time, Vallecitos Water District will not be making any physical location available for members of the public to observe the meeting and offer public comment. The public is encouraged to watch and participate in the meeting from the safety of their homes. The meeting can be viewed on the agenda page located on the main page of the District's website. Public comments or questions can be submitted to the following email address: <a href="mailto:PublicComment@vwd.org">PublicComment@vwd.org</a>. All written comments that are received 90 minutes before the meeting will be provided to the Board, and a record of the receipt of comment will be noted during the meeting.

CALL TO ORDER - DIRECTOR SANNELLA

#### ITEM(S) FOR DISCUSSION

- BUDGET OVERVIEW
- 2. BUDGET FY20-21
- 3. MATERIALS & SERVICES 2021 COVID

#### OTHER BUSINESS

#### PUBLIC COMMENT

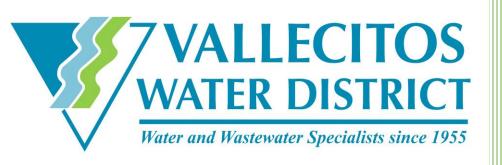

Persons wishing to address a matter not on the Agenda may be heard at this time; however, no action will be taken until the matter is placed on a future agenda in accordance with Board policy. Public comments are limited to three minutes. A Request to Speak form is required to be submitted to the Executive Secretary prior to the start of the meeting, if possible. Public comment should start by stating name, address and topic. The Board is not permitted during this time to enter into a dialogue with the speaker.

If you have any disability which would require accommodation in order to enable you to participate in this meeting, please call the Executive Secretary at 760.744.0460 ext. 264 at least 48 hours prior to the meeting.

# **AFFIDAVIT OF POSTING**

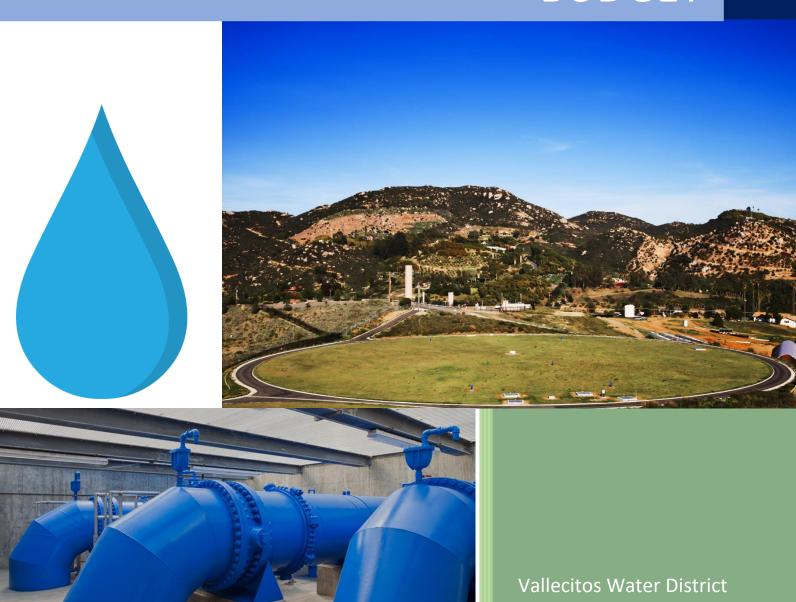

I, Diane Posvar, Executive Secretary of the Vallecitos Water District, hereby certify that I caused the posting of this Agenda in the outside display case at the District office, 201 Vallecitos de Oro, San Marcos, California by 5:00 p.m., Thursday, December 17, 2020.

Diane Posvar

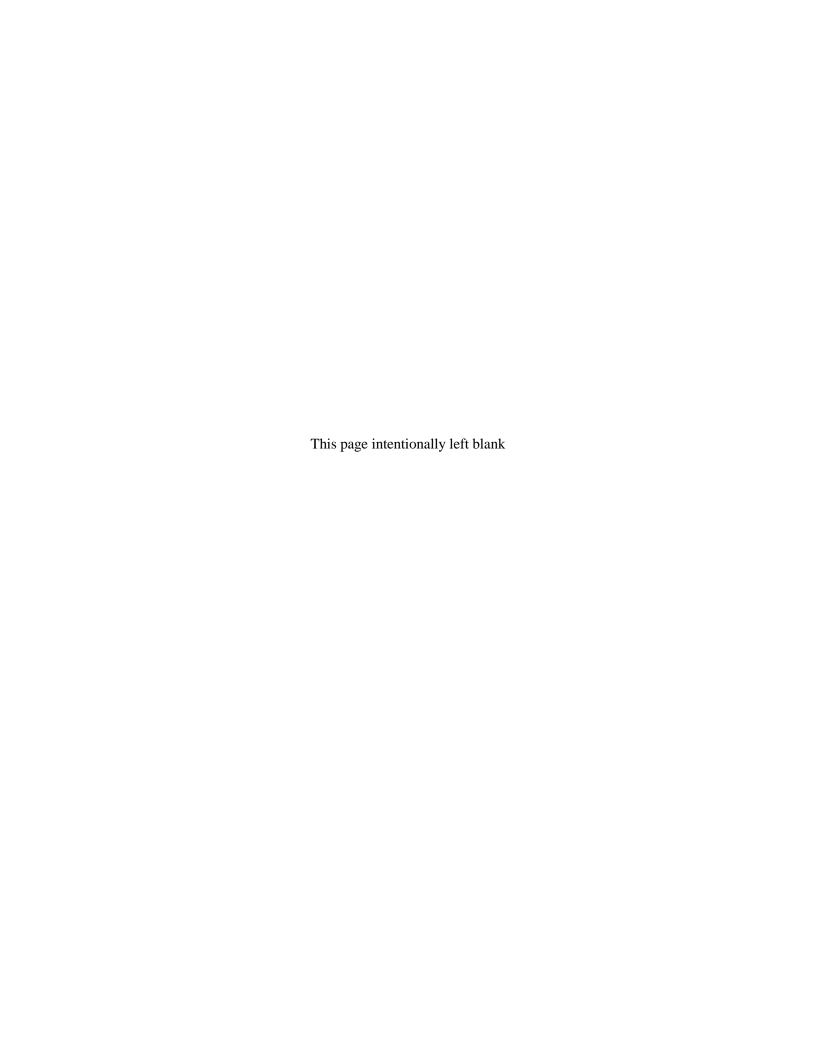

# Fiscal Year 2020-2021

# **BUDGET**

Vallecitos Water Distric San Marcos, California

# **Our Mission**

#### Water and wastewater specialists providing exceptional and sustainable services.

This mission of exceptional and sustainable services is reflected in this budget and in the attitudes and commitment of the Vallecitos Water District staff and Board Members.

Date: June 3, 2020

To: Honorable Board of Directors

Regarding: Fiscal Year 2020/21 Budget

Enclosed is the recommended **Budget** for Fiscal Year 2020/21 (FY 20/21). The FY 20/21 budget totals \$90.6 million compared to \$98.1 million in FY 19/20. The FY 20/21 Budget is comprised of \$56.0 million of operational expenses (a 4.3% decrease from the \$58.6 million in 2019/20 operating budget), \$25.2 million for capital items and projects (\$26.1 million in 2019/20), debt service of \$5.4 million (\$5.4 million in 2019/20) and CalPERS Unfunded Accrued Liability (UAL) funding of \$4.0 million (\$8.1 in 2019/20). This budget includes a ten-year plan for capital items and projects of \$144.9 million (\$140.2 million in 2019/20). Inclusive of the ten-year capital plan the budget totals \$211.2 million compared to \$212.9 million in 2019/20.

The operational decrease of \$2.6 million primarily is attributable to a \$2.3 million decrease in water purchases due to decreased demand as a result of COVID impacts. The District estimates a 35% reduction in commercial demand as a result of businesses being closed offset by a 5% increase in residential demand due to customers being home and using more water in FY 20/21. The remaining \$0.3 million is mainly from decreased costs budgeted as a result of operational efficiencies at Meadowlark Plant, Meadowlark Lift Station, and Mahr Reservoir. In addition, \$6.3 million from operations is being transferred to reserves for capital replacement.

The revenue estimates included in this budget reflect rate increases for Water, Sewer and Ready-to-Serve which will be considered after completion of a cost of service study to be performed prior to consideration in December. Estimated rate increases included in this budget are between 3.5% and 4% over the five-year forecast. The rates are to recover the costs of service and meet strategic and financial objectives of the budget.

#### Long-range Financial Planning

As with recent budgets, this budget includes a ten-year projection of operating costs and capital needs in order to plan for a sound future in water supply and reliability. Fiscal sustainably is a necessary factor in the equation for future reliability and is a guiding influence in everything the District does.

All District employees are responsible to consider costs involved with activities and try to work as efficiently and effectively as possible. Consideration of controlling costs translates into the future financial viability of the District. Some of these considerations include: rate affordability; maintaining reserves, assess adequacy to cover debt obligations now and in the future; funding CalPERS UAL; and a credit worthy cash position. We plan to meet our capital needs and maintain a strong financial position without incurring any new debt in FY 2020/21.

#### FINANCIAL HIGHLIGHTS

The following narratives are financial highlights and comparisons of this budget, FY 2020/21, and last budget, FY 2019/20.

Board of Directors June 3, 2020 Page Two

#### Water Operations (pages 3-14)

Water purchases are projected to total 13,445 acre-feet with sales of 12,400 acre-feet for 2020/21. The water operating budget decreased by \$1.6 million from last year's budget, or 3.6%.

#### Wastewater Operations (pages 15-24)

Wastewater operating costs decreased \$0.9 million, or 6.6%, over last year's budget, mainly due to operational efficiencies at the Meadowlark plant and the District's portion of Encina's pre-funding of their UAL being moved from operating expenses to being funded from reserves. Reclaimed water costs are recovered by contractual sales to the Carlsbad Municipal Water District and Olivenhain Municipal Water District.

#### Personnel (pages 25-31)

Fiscal year 2020/21 includes no new positions. The Assistant General Manager position is budgeted as vacant again this year. Salaries and benefits for 2020/21 decreased from the last budget year by \$321 thousand or 2.0% mainly as a result of a \$280 thousand decrease in the cost of Public Employment Retirement due to the District paying down the Unfunded Accrued Liability. Management will continue to scrutinize the need for all positions and only fill positions if absolutely necessary.

#### Capital Budget (pages 33-103)

Capital projects are summarized on the Comprehensive Project List found on page 34. Details of each project, including timing of phases and spending, are presented on pages 36 through 101, followed by requests for easements, vehicles and equipment of \$881 thousand. Of the ten-year \$144.9 million capital budget, \$67.1 million are new requests and \$31.2 million are for future projects included for planning purposes. The remainder is from projects carried over from the prior year resulting in a capital budget increase of \$4.8 million. The amount of capital funding for FY 2020/21 is \$24.3 million.

#### Reserve Budget and Projection (pages 104-111)

The Reserve Budget includes revenues and transfers from various sources and summarizes appropriations and expected cash outflows for CalPERS UAL funding, debt service, and capital projects. Page 105 displays the 2020/21 reserve budget for consideration. Pages 106 through 110 display detailed reserve projections for four subsequent years followed by a summary projection for the five years thereafter.

As a final note, our projections are based on trends, anticipated large one-time expenditures, economic factors within our industry, and global factors influencing our operations. Obviously, a good amount of forethought and monitoring at both the Board and staff levels has been required to produce such a realistic and useable financial guide.

Respectfully submitted,

Glenn Pruim, General Manager

Date: June 3, 2020

To: Honorable Board of Directors

Regarding: CalPERS Unfunded Accrued Liability Funding Policy

It is Vallecitos Water District's commitment to excellence which drives staff to identify opportunities to remain efficient, fiscally responsible, and innovative. Managing the CalPERS pension liability is one of the District's most significant financial challenges and has been identified as one of the organization's key strategic initiatives to address. In Fiscal Year 2020 Vallecitos established a policy to pay down the pension liability over a maximum of three years with half of the amount paid in Fiscal Year 2020. On November 20, 2019, in accordance with policy, the District paid \$8.1 million of the CalPERS Unfunded Accrued Liability. Based on the most recent actuarial valuation report, dated June 30, 2018, the District's pension liability was approximately \$19.8 million. After the \$8.1 million payment the revised June 30, 2020 Total Unfunded Liability per CalPERS was \$11.3 million.

At the board meeting on May 20, 2020 staff obtained clear policy direction on how to manage the pension liability over the next couple years. Staff has been instructed to pay \$4.0 million of the pension liability in Fiscal Year 2021 with the remaining amount to be paid in Fiscal Year 2022 at the discretion of the board. Based on guidance and concerns received from the Board of Directors, Vallecitos intends to continue to address the pension liability by doing the following:

- 1) Pay the \$11.3 million pension liability over the next two years at the discretion of the Board with \$4.0 being paid in Fiscal Year 2021. For the five-year plan included in the Fiscal Year 2021 Recommended Budget it is assumed the \$11.3 million won't materially change during that time frame and it assumes a constant 7.0% interest rate being charged.
- 2) Revise the policy brief annually with updated amounts when new actuarial reports are released and incorporate them into Budgets for future fiscal years.
- 3) Maintain flexibility and control with this funding strategy, not locking into any formal arrangements with CalPERS.
- 4) Avoid over-paying, or becoming super-funded, by reassessing the final year's payment as necessary.
- 5) Report back to the Finance Committee and Board of Directors on pension funding status on a regular basis.

Below approximates the fiscal impact of this funding policy in conjunction with the minimum required payments Vallecitos would have to make regardless of the funding policy. This has been incorporated into the Recommended Budget for Fiscal Year 2021.

#### **BUDGETARY CONSIDERATIONS**

#### Mission Statement

Water and wastewater specialists providing exceptional and sustainable services.

The budget reflects the mission statement

#### **Budgetary Approach**

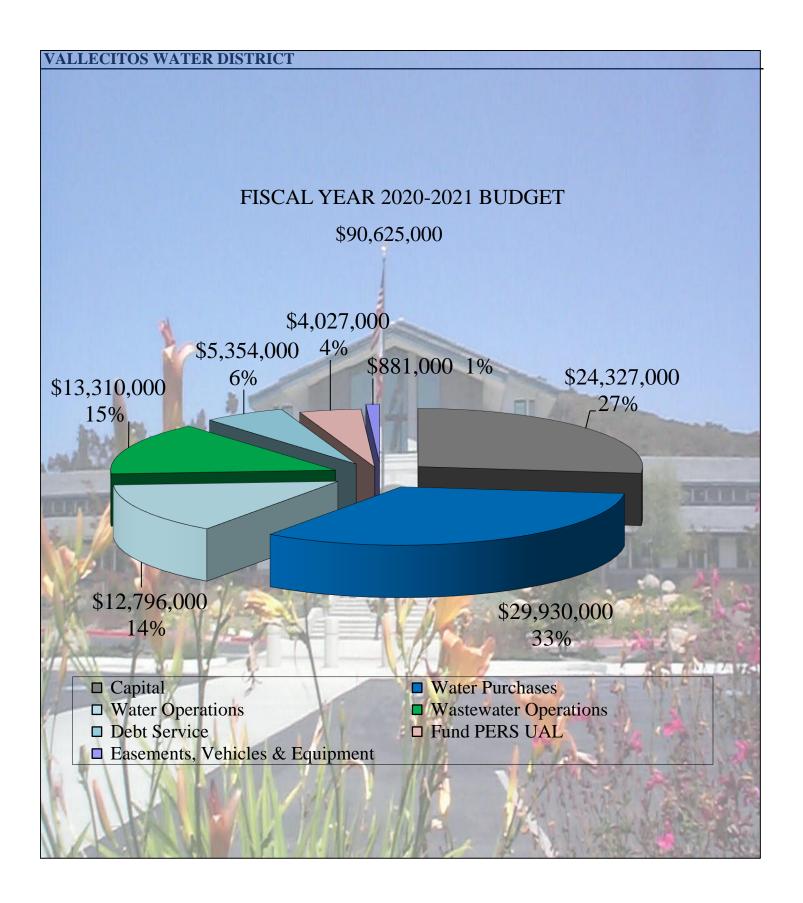

Governmental agencies, such as cities and counties, usually approach their budgets from the "revenue end." Since their revenues are somewhat predictable and restricted, their budgetary considerations are based on setting a level of service (expense total) that can be attained with those available funds.

A special district, however, must make a more thorough analysis. Normally, the expenses can be determined with a high degree of accuracy, and it's the revenues that must be set to cover those expenses. To complicate matters, factors such as weather variability and customer usage habits can have a profound effect on the overall revenue projection.

#### Operations vs. Capital Budget

The budget is designed to ensure various revenues and fees are used as intended. The Operations Budget, which covers the ongoing cost of running the District, is paid by the rate payers of the District through charges for water and sewer service. The Capital Facilities Budget is covered primarily by fees on new development and existing customers with increased demands.

Operating revenue in excess of operating expense is earmarked for transfer to the Replacement Reserve Fund for the future replacement of assets. This ensures the current users of our system are paying their fair share for the maintenance of existing facilities as they depreciate.

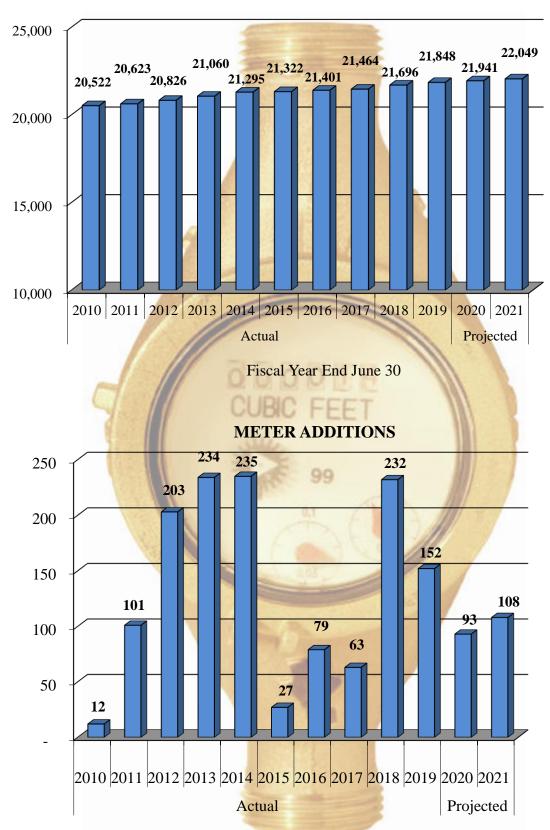

# 2020-21 OPERATING BUDGET

# WATER

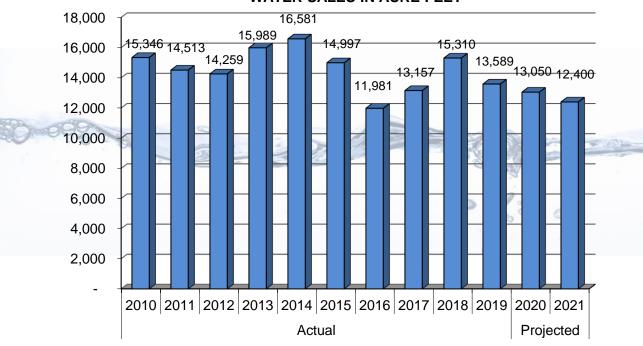

Double Peak Tank

#### **METERS IN SERVICE**

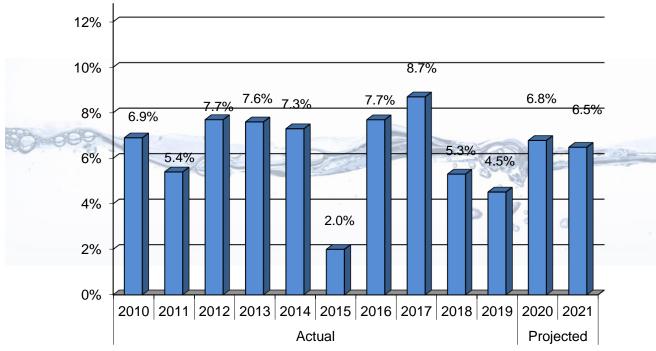

Fiscal Year End June 30

#### **WATER SALES IN ACRE FEET**

Year End June 30

#### **UNBILLED WATER**

Year End June 30

Unbilled Water includes use acquired with one-day permits, tie-ins, operational use, fire hydrant damage and use, meter malfunctions, leaks.and timing differences

#### FUNCTION DEFINITIONS - WATER OPERATIONS

#### **REVENUES**

<u>Water Sales</u>: Monthly charges to cover the wholesale cost of water, with a minimal markup targeted to cover some operating costs and provide funds for capital improvements and replacement.

<u>Ready To Serve</u>: Monthly charge to cover fixed costs, regardless of water sales. Examples include maintenance of reservoirs and transmission lines, meter reading and administrative costs such as insurance.

<u>Pumping Charges</u>: Charges to customers at high elevations, to cover the power costs required to deliver water.

<u>Interest and Other</u>: Interest revenue, late charges, backflow fees, engineering fees and other miscellaneous revenues.

#### **OPERATING EXPENSES**

<u>Water Purchases:</u> Vallecitos purchases its water from two sources: The San Diego County Water Authority (SDCWA) and the Olivenhain Municipal Water District. Desalinated water is included in the water purchased from SDCWA.

<u>Pumping</u>: To move water to various elevations, and to provide adequate pressure and storage to higher service connections. Includes maintenance of ten pump stations, readings, and power costs.

<u>Water Quality</u>: To monitor incoming water in accordance with federal and state regulations. Includes collecting samples and reporting results, and maintenance of monitoring equipment.

<u>Water Treatment</u>: To treat water in tanks, handle chemicals, and use and maintain injection equipment for pipelines.

<u>Tanks and Reservoirs</u>: Maintenance of 17 steel tanks and 2 reservoirs. Includes corrosion control, security, and water level monitoring.

<u>Transmission and Distribution</u>: Maintenance of pipeline system within 45 square miles, consisting of 329 miles of pipes. Includes 26 pressure reducing stations, 3 (internal) flow control facilities, all air releases/blow-offs, fire hydrants (buried portion), cross-tie valves with other districts, and valve exercising.

Services: Maintenance of all service lines located from main lines to meters.

#### FUNCTION DEFINITIONS - WATER OPERATIONS (Continued)

<u>Meters:</u> Reading approximately 22,000 meters monthly for billing purposes as well as maintenance of all customer meters.

<u>Backflow Prevention</u>: Ensures compliance with Title 17, requiring backflow devices for specific connections to protect quality of water in our system.

<u>Customer Accounts</u>: Costs related to opening and closing accounts, response to customer concerns, billing costs (statements, mailing), and uncollectible accounts.

<u>Equipment and Vehicles</u>: Maintenance of District equipment. Includes all construction equipment, water, sewer and administrative vehicles, plus miscellaneous tools and equipment.

<u>Buildings and Grounds</u>: Maintenance of administrative and operations buildings, warehouse, and shops. Also includes power costs, alarmed security system, landscape service, janitorial, and pest control.

<u>Engineering</u>: All costs of engineering, capital facilities and inspection services. Includes review and monitoring of development to ensure compliance with standard design practices, impact on existing system and environment, and orderly planning to provide adequate water and sewer service as demand dictates.

<u>Safety and Regulatory Affairs</u>: Program to control unnecessary risks, hazardous conditions, and unsafe practices, and minimize physical losses, personnel injuries, and district liability, and to provide for regulatory compliance in environmental, public health and other mandated areas.

<u>Information Technology</u>: Centralization of the District's technology to maintain hardware, software, servers, networks, and interfaces.

#### General and Administrative

#### Cost of Labor:

- *Salaries* include administrative and conservation personnel salaries and all vacation, sick leave, and holiday time for administrative and water personnel.
- *Group Insurance* is health, vision, and dental costs for all administrative and water personnel.
- Workers' Compensation Insurance costs for all administrative and water personnel.
- Public Employees Retirement System (PERS) participation costs for all administrative and water personnel.
- Social Security costs for all administrative and water personnel.

#### FUNCTION DEFINITIONS - WATER OPERATIONS (Continued)

#### General and Administrative (continued)

• Other Taxes/Benefits includes unemployment and other miscellaneous employee taxes and benefits such as annual luncheon, and awards for all personnel.

*District Insurance* premium costs protect District assets, such as buildings and vehicles, and provide liability coverage for potential claims.

Outside Services are provided by consultants and temporary help.

Legal costs are incurred for general legal counsel (presence at board meetings, contracts, employment issues, etc.)

Auditing is conducted by a certified public accounting firm to provide an opinion on the annual financial report.

Banking Services are provided to maintain the District's general checking account plus trust and custody services.

Office Supplies are purchased for necessary administration of the District including office equipment costing less than the capitalization threshold.

*Postage* not related to public relations or customer billing includes notifications, such as shutdowns and public hearing notification mailings.

Office Equipment Repair covers maintenance contracts on computer system, billing equipment, copiers, telephone system, and other repairs as needed.

*Telephone* costs are for service at administration and water operations, long distance, data lines, and cellular phone service for field and key personnel.

*Travel* costs are for administrative and water personnel.

*Meetings and Seminars* for administrative and water personnel provide District representation and professional development.

*Dues and Subscriptions* are for memberships and periodicals to various organizations, such as American Water Works Association (AWWA).

Public Awareness/Conservation is the "image and information" arm of the District, utilizing publications, special events, the speakers' bureau, and the VWD School Program to present Vallecitos as the "Water and Wastewater Specialists" and promote effective water conservation programs.

#### FUNCTION DEFINITIONS - WATER OPERATIONS (Continued)

#### General and Administrative (continued)

Regulatory Fees are incurred for renewal fees for personnel certifications such as water distribution and treatment, notary, and professional memberships, state regulatory agencies, and other compliance matters.

*Election and Annexations* facilitation costs are assessed by the County.

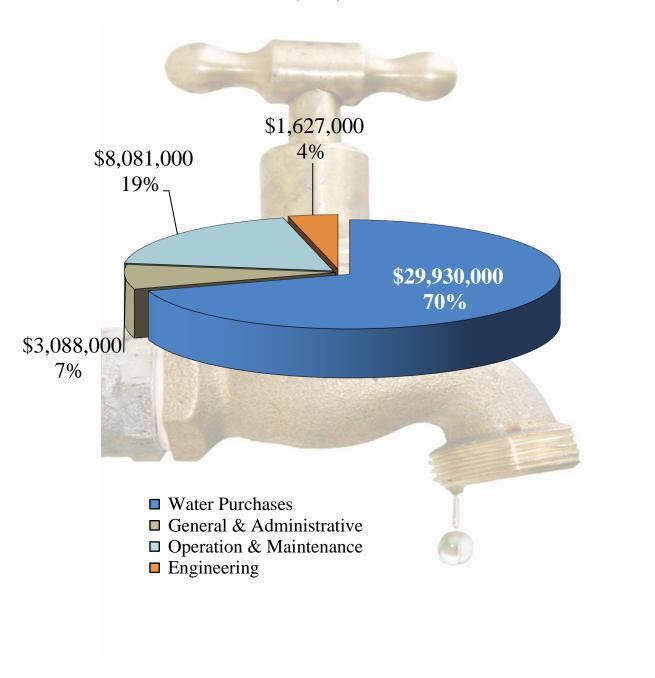

*Director Fees* are paid for attendance of board meetings, professional conferences, and other District-sanctioned organizations.

*Director Expenses* include all costs incurred by Directors, such as travel reimbursement and conference fees.

Other/Mandated Reimbursements include miscellaneous expenses that do not specifically apply to any of the above-referenced categories less mandated cost reimbursements due from the State.

Administrative Credit Transfer is a collection or recovery of overhead costs that are applied to all construction work orders.

2020-21 WATER OPERATING EXPENSE BUDGET \$42,726,000

# 2020-21 OPERATING BUDGET WASTEWATER

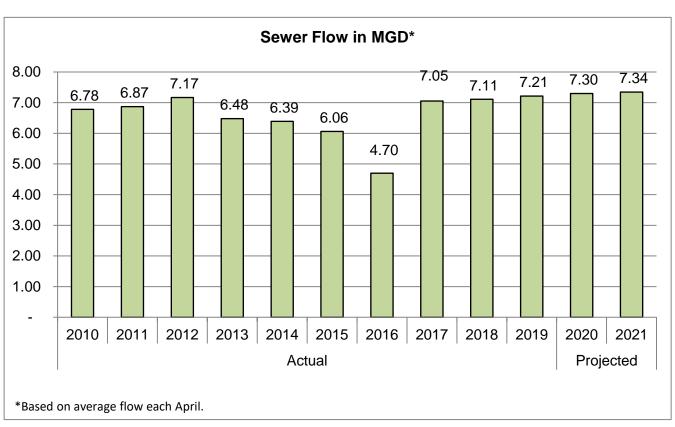

Chlorine Contact Tank at Meadowlark Wastewater Reclamation Facility

#### FUNCTION DEFINITIONS - WASTEWATER OPERATIONS

#### **REVENUES**

<u>Sewer Service</u>: Monthly charges to cover the cost to collect, treat and dispose of wastewater plus maintain the various wastewater facilities.

<u>Reclaimed Water Sales</u>: Revenue generated from contractual sale of reclaimed water to the Carlsbad Municipal Water District and the Olivenhain Municipal Water District on a cost recovery basis.

Other: Interest revenue, late charges, engineering fees and other miscellaneous revenues.

#### OPERATING EXPENSES

<u>Collection and Conveyance</u>: Maintaining flow in 249 miles of District sewer lines. Includes blockage removal, television inspection, and maintenance of pipeline system and manholes.

<u>Lift Stations</u>: Cost of lifting sewage flows at the Montiel Lift Station, Lake San Marcos Lift Station and Questhaven Lift Station. Includes maintenance and power costs of the pumping systems.

<u>Source Control</u>: Costs to ensure compliance with federal, state, and local regulations as administered through the Encina Wastewater Authority.

<u>Encina Disposal</u>: Cost reimbursement to the Encina Wastewater Authority for processing wastewater and returning clean water to the environment.

<u>Meadowlark Plant</u>: All costs attributed to treating wastewater and for production and sale of reclaimed water to City of Carlsbad, and OMWD including operation and maintenance of the plant, No. 1 Lift Station, and Mahr Reservoir.

Customer Accounts: Responds to customers, associated billing costs, and uncollectible accounts.

<u>Equipment and Vehicles</u>: Maintenance of sewer vehicles and equipment and transfer of a portion of administrative and water operations vehicle costs attributable to sewer.

Buildings and Grounds: A transfer of costs attributable to sewer.

Engineering: All attributable sewer engineering, capital facilities and inspection costs.

### FUNCTION DEFINITIONS - WASTEWATER OPERATIONS (Continued)

<u>Safety and Compliance</u>: A transfer of safety and regulatory affairs costs attributable to sewer operations.

<u>Information Technology</u>: Centralization of the District's technology to maintain hardware, software, servers, networks, and interfaces.

#### General and Administrative

#### Cost of Labor:

- Salaries include all vacation, sick leave, and holiday time for sewer personnel.
- *Group Insurance* is health, vision, and dental costs for all sewer personnel.
- Workers' Compensation Insurance covers all sewer personnel.
- Public Employees Retirement System (PERS) participation costs for all sewer personnel.
- Social Security cost for all sewer personnel.
- Other Taxes include unemployment and other miscellaneous employee taxes for sewer personnel.

*Travel* costs for sewer personnel.

*Meetings and Seminars* fees for sewer personnel are to provide District representation and professional development.

Dues and Subscriptions are periodical costs for sewer-related activities.

Other includes miscellaneous expenses that do not specifically apply to any of the above-referenced categories.

Administrative Credit Transfer is the collection or recovery of overhead costs that apply to all construction work orders.

<sup>\*</sup> There is also a labor overhead charge to work orders to cover benefit costs which are a part the credit in the General and Administration sections of Water and Wastewater operations.

#### 2020-21 PERSONNEL BUDGET

#### POSITIONS/PERSONNEL:

Management will scrutinize the need for all positions and only fill positions if absolutely necessary. The Assistant General Manager position is budgeted as vacant again this year. The fiscal year 2020-21 budget includes no new positions.

#### 2020-21 PUBLIC AWARENESS AND CONSERVATION PROGRAM BUDGET

#### **REBATE PROGRAMS \***

Prj 2021100038

Pri 2021100039

W/O 117447

To encourage the purchase of qualified low flow devices, appliances, artificial turf or rebates to customers who remove their existing truf grass and install a low-water landscape (i.e., Cash for Grass program.)

1,000

\$

#### OUTREACH & ADVERTISING

W/O 117448

For purchase of items and services used to assist customers in becoming better informed about water related issues. Includes but not limited to: purchase of videos, books, displays and promotional items; advertising; cost to participate in community events; employee education; and to provide tours of District facilities. Includes cost to produce and mail newsletters, consumer confidence report, brochures, bill inserts, special hearing notifications, and others as needed.

52,900

#### **VIDEO PRODUCTION**

Prj 2021100040

W/O 123555

Cost to hire outside production company to produce videos highlighting the District or for internal staff to purchase supplies and services to create videos. Videos to be shown during tours of the District, speaking engagements, on the VWD website and/or on social media.

8,500

#### **EDUCATION**

Prj 2021100041

W/O 117451

For continued development and purchase of materials designed to promote and implement K-12 education programs. This includes the Splash Science Mobile Lab visits to area elementary schools and payment for bus transportation to Jack's Pond Park and Heritage Park to listen to educational water history information by District staff. Also includes bus transportation for school tours of the District. Includes materials and costs to participate in annual Water Awareness Campaign (4th grade calendar/poster contest), such as the purchase of calendars, entry forms, prizes for entrants and poster contest winners. Also includes participation in Palomar College GEAR UP program.

6,800

#### **COOPERATIVE PROGRAMS\***

Pri 2021100042

W/O 117452

For participation in cost-sharing programs such as residential surveys; large property audits, which are outsourced due to extensive staff time that would be required; customer service surveys; and supplies such as dye tablets, showerheads and moisture probes.

4,000

#### **WATERWISE LANDSCAPE**

Prj 2021100043

W/O 117453

To promote low water use landscape and irrigation practices. Includes the cost for sponsoring, maintaining and upgrading water-wise demonstration gardens\*\*, landscape irrigation/plant selection workshops, signage and promotion of demonstration gardens, waterwise plant promotions, and purchase of waterwise landscape brochures and publication reprints.

\*\* Demonstration gardens include: Sustainable Demonstration Garden at VWD Administration building, Heritage Park native plant garden and Jack's Pond Park native plant garden.

6,000

#### MEMBERSHIPS & EQUIPMENT Pri 2021100044

W/O 117454

To maintain memberships in related organizations and committees and for the purchases of new or replacement equipment.

2,600

#### COMMERCIAL/INDUSTRIAL

Prj 2021100045

W/O 117455

To assist large commercial and public agency customers by providing workshops, written materials, monetary incentives, and using outside consultants.

1,200

#### TOTAL PUBLIC AWARENESS/CONSERVATION PROGRAM BUDGET

83,000

<sup>\*</sup> Uncertainty in the funding from the Metropolitan Water District may adversely impact the availablity of programs.

## **Capital Improvement Program Land Outfall Gravity Sewer Sec D Phs 1**

**Description:** Approximately 7,900 feet of existing 30 to 39-inch sewer pipe within Gravity Section D of the Land Outfall is currently under capacity and will need to be upsized to new 36-inch to 48-inch PVC pipes.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 90001 **Funding Source:** 20% Fund 220 - Sewer Capacity 80% Fund 210 - Sewer Replacement

Comments: The Land Outfall comprises approximately 34,000 feet of sewer pipe (total) installed in 1985, connecting Lift Station No. 1 to the Encina Water pollution Control Facility. A portion of the Land Outfall, referred to as Gravity Section D, is made up of approximately 15,000 feet of sewer pipe ranging in size from 30 to 39-inch from east of Interstate 5 to the end of Siphon C, located near Palomar Oaks Way and Camino Vida Roble. Approximately 7,900 feet of Gravity Section D is currently over capacity and needs to be upsized to new 36-inch to 48-inch PVC pipelines. The District will work with other interested agencies (City of Carlsbad, Buena Sanitation District & City of Vista) when possible in pursuit of cost-sharing alternatives. After project completion, the District estimates \$3,515,000 will be received in reimbursements.

The existing Land Outfall capacity ownership percentages for the three agencies are:

Carlsbad 23.98% Vista 17.99% VWD 58.03%

**Operations Impact:** Reduce the risk of sewer spills. Increase capacity. Routine maintenance.

### Capital Improvement Program San Marcos Interceptor Phase 2

**Description:** The project consists of constructing approximately 3400 feet of 42-inch sewer interceptor replacing an existing 21-inch sewer line. The existing line is prone to groundwater inflow and infiltration (I&I) and at risk for failure and sanitary sewer overflow. The sewer interceptor runs along San Marcos Creek from north of the State Route 78 past McMahr Road. The project includes open cut and a tunnel section.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 71004 **Funding Source:** 29% Fund 210 – Sewer Replacement 71% Fund 220 – Sewer Capacity

Comments: This project is the last phase of a project identified in the 2002 Master Plan. The reduction of inflow and infiltration (I&I) will help extend the life of the sewer system downstream of the San Marcos interceptor and reduce unnecessary treatment of groundwater at the Encina Water Pollution Control Facility and VWD's Meadowlark Water Reclamation Facility. The new line will also reduce the likelihood of sanitary sewer overflows into the San Marcos Creek. Previous phases have already been completed. Design began FY 13/14 for the last phase, Phase 2, between Via Vera Cruz and Pacific Street in order to be consistent with the future improvements within the Creek District. The City of San Marcos will reimburse VWD for approximately \$70,000 in design costs for Phase 2. The construction cost reimbursement will be finalized after actual bid prices are received for the project. This project is identified in the 2018 Master Plan as Project SP-11.

**Operations Impact:** The sewer capacity replacement project will serve to prevent future sanitary sewer overflows (SSOs).

## **Capital Improvement Program Montiel Lift Station and Forcemain Replacement**

**Description:** The Montiel Lift Station and the discharge forcemain have surpassed the end of their design life and require replacement. In addition, the lift station is undersized to handle peak wet weather build out flows for the area.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2020100002 **Funding Source:** 51% Fund 210 – Sewer Replacement 49% Fund 220 – Sewer Capacity

Comments: The Montiel Lift Station is a small facility just north of State Route-78 and east of Nordahl Road. This lift station was constructed in 1985 and was originally designed to serve as a temporary purpose. The lift station collects and conveys wastewater flows from a 200-acre area east of Nordahl Road near the District's eastern service area boundary. The lift station's discharge consists of 1,830-feet of 6-inch diameter ductile iron pipe (DIP) forcemain which has surpassed the end of its design life. The District has prepared a planning document and determined that a gravity outfall solution, in partnership with the City of Escondido will not be realized. This project is identified in the 2018 Master Plan as Project LS-1.

The existing pumps in the lift station are not adequately sized to convey ultimate peak wet weather flows and will be replaced with 300-gpm pumps (approx). Access to the lift station will be improved and located above ground with dry pit centrifugal pumps to reduce occurrences of confined space entry by staff. The existing forcemain discharge connection to the gravity manhole in Nordahl Road will be replaced. An additional 2,350 feet of forcemain piping may be included downstream of this location to reduce the quantity/cost of future CIP replacements of the existing gravity sewer in the Nordahl Shopping Center. Additional replacements of existing 10" diameter DIP influent gravity sewer segments upstream of the lift station may be replaced.

**Operations Impact:** Routine monitoring and maintenance.

#### **Project Spending Plan**

### Capital Improvement Program Encina Wastewater Authority FY 19/20

**Description:** The District is a member agency of the Encina Wastewater Authority (EWA). The District shares in the cost of planned asset replacements and capital acquisitions.

Project Manager: Wes Owen Department: General Manager

**Project:** 2020100001 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** These miscellaneous Encina Wastewater Authority capital projects are budgeted each year based on the District's 22.4% ownership share.

Operations Impact: No significant increase in costs or changes in efficiencies are anticipated from this project

## **Capital Improvement Program Chlorine Contact Tank Expansion**

**Description:** Expand the existing Chlorine Contact Tank (CCT) at the Meadowlark Water Reclamation Facility (MRF) from 5 million gallons a day (MGD) to 6.5 MGD. Evaluate updating CCT process to utilize Ultraviolet Sterilization.

Project Manager: Ryan Morgan Department: Engineering

Project: 2016100002 Funding Source: 100% Fund 250 - Reclaimed

Work Order: 167177

**Comments:** The existing CCT were part of the original expansion of MRF in the 1980's. During the latest expansion of MRF which started in 2005, the CCTs were re-rated to handle the expanded flow but were not updated. Currently the CCTs remain one of the bottlenecks in the process at MRF.

Chlorine contact tanks (CCTs) at Meadowlark Water Reclamation Facility (MRF) can process up to 5 million gallons per day (MGD) of reclaimed water; all of the other treatment components at MRF has the ability to process up to 6.5 MGD. This was identified in the draft Nutrient Removal Study, which indicated that MRF has the ability to increase the daily treatment capacity to 6.5 MGD. The District as a member of the North San Diego County Water Reuse Coalition secured a grant of \$90,000 under Prop 84, awarded by the State Water Resources Control Board (SWRCB). The District is seeking 25% Grant funding for the project budget total. Reimbursement for project costs will also be acquired from current recycled water customers (City of Carlsbad and Olivenhain Municipal Water District) through the Recycled Water Rates. Construction of the CCT expansion will be contingent on acquiring these grant funds and reimbursement agreements. The net result will be 'no cost' to the District.

**Operations Impact:** Normal maintenance.

### Capital Improvement Program Meadowlark Tank No. 3

**Description:** This existing Meadowlark Tank site is comprised of one 1.25 million gallon (MG) tank and a second 2.75 MG tank. As part of this project, a new 2.5 MG Meadowlark Tank No. 3 will be built.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 71084 Funding Source: 100% Fund 120 – Water Capacity

Work Order: 71084

**Comments:** The site was master planned during the 76-1 Assessment District to accommodate three tanks total. A final 3.5 million gallon (MG) tank is not expected to be needed until 2036, when it will replace the 1.25 MG Tank No. 1. At build-out, the Meadowlark Tanks will provide a total storage capacity of 8.75 MG. This project is identified in the 2018 Master Plan as Project R-1.

**Operations Impact:** The project will increase capacity at the site by 2.5 million gallons with the construction of the new tank. Daily monitoring of water levels and conditions at the tank site is expected.

# Capital Improvement Program City of San Marcos Creek District Phase 1

**Description:** This amount is set-aside to cover services rendered in conjunction with various City of San Marcos projects involving District infrastructure per the District/City of San Marcos Cost Sharing Agreement dated March 31, 2009. This includes District staff time involved in inspection and project management, as well as reimbursements to the City for District infrastructure relocations and adjustments.

Project Manager: Rob Scholl Department: Engineering

Project: 2017100224 Funding Source: See Below

#### **Comments:**

## Capital Improvement Program Tres-Amigos Water Line Replacement Phase 1

**Description:** Replace approximately 7,800 feet of the Tres-Amigos thin-wall steel water line. The aging 6-inch to 8-inch steel pipe will be replaced with new PVC pipe.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2020100003 Funding Source: 100% Fund 110 – Water Replacement

Comments: The Tres-Amigos water line consists of of approximately 19,000 feet of pipelines ranging from 6-inch to 12-inch diameter. The water pipelines located in the northern limits of VWD boundary were installed in the 1950s and 1960s, extending from the North Twin Oaks Tank No. 2 in Pleasant Heights Drive to north of Carrio Drive. The original Tres Amigos Line Extension Project occurred in 1958 which installed 6-inch and 8-inch diameter tar wrapped 12-14-gauge steel pipelines. This material is considered steam pipeline and is not adequate for use in pressurized water distribution systems. The Project will design the replacement of existing 6-inch and 8-inch diameter steel water mains with 8-inch (minimum) diameter C-900 PVC water pipeline.

Due to the frequency of pipeline ruptures, this project will replace approximately 7,800-feet of the Tres Amigos water pipelines beginning at the tee junction in Green Hills Way, traveling northbound in VWD easements and in Ormsby Way. The pipeline corridor veers east in an existing VWD easement from Ormsby Way and travels northbound in alignment with Fairview Drive and crosses Gopher Canyon Road, continuing northbound in Fairview Drive. North of the Carrio Drive/ Fairview Drive intersection, the pipeline travels northeast in VWD easements through private properties to a deadend at VWD's northern boundary (end of Project). A key Project objective includes the relocation of the existing pipelines out of private backyards and into more accessible areas.

**Operations Impact:** Reduced risk of water line breakage. Annual and routine pipeline maintenance is expected with the completion of this project.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22    | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |

## **Capital Improvement Program Elser Lane Water Line Improvements**

**Description:** Project will ensure reliability and improve water quality for residents along Elser Lane by transferring water services to a new 8-inch distribution main instead of the existing 18-inch transmission main.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2018100002 Funding Source: 100% Fund 110 – Water Replacement

Comments: An existing 18-inch diameter cement mortar lined and coated steel transmission main between Rees Road and Rock Springs Road was installed in 1956. The pipeline corridor travels between homes, underneath structures, and in private backyards where access is significantly limited. Should a pipeline rupture occur or if the pipeline requires repair, there is a greater chance of damage to property owners. This line serves approximately 21 residential meters. This project will bring this area into District standards by extending new 8-inch distribution water lines on Elser Lane to service residents with new water meters. New connections to existing water lines in McLees Court will create a loop in the water supply system, ensuring reliability of service and improving water quality. This project also offsets future costs to relocate the water main under the Rees Road Water Line Project.

**Operations Impact:** Improve reliability and water quality. Routine maintenance.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |

## Capital Improvement Program MRF: Conversion to Sodium Hypochlorite

**Description:** Replace the use of chlorine gas at the Meadowlark Water Reclamation Facility with bulk storage of sodium hypochlorite (bleach)and peform a structural retrofit to meet the current State seismic standards for buildings.

Project Manager: Ryan Morgan Department: Engineering

Project: 2017100002 Funding Source: 100% Fund 250 - Reclaimed

Comments: The Meadowlark Water Reclamation Facility (MRF) currently uses 100% chlorine gas as a disinfectant in order to meet State regulations for reclaimed water. Chlorine gas is an acute hazard that presents a danger to District staff and the increasing number of residents in the immediate area. Use of this gas requires the District to maintain several expensive State and Federal safety programs, equipment, and a Hazardous Materials response team; requiring a considerable amount of staff time. The conversion to bulk storage of sodium hypochlorite removes the acute hazard of chlorine gas and replaces it with a bleach solution (12.5%) that removes the District's requirement to maintain several of the extensive safety programs for that site. Use of the bleach will not create an acute hazard in the event of a leak. The project will proceed with an agreement from the Recycled Water customers (City of Carlsbad and OMWD) to reimburse the District through Recycled Water rates.

During the Process Hazard Analysis of 2019, ventilation openings in the Chlorine Building were identified as having seismic deficiencies. These deficiencies need to be seismically retrofitted to the current building code.

**Operations Impact:** Removal of an acute hazard. Reduction in regulatory requirements and staff time at the Meadowlark Reclamation Facility. Economic benefit of no longer needing to import chlorine gas or maintain a HazMat team. Routine maintenance.

| Jul 2016         | Jul 2018 | Sep 2021 | Oct 2021 | Aug 2022 | Oct 2022     | Jun 2023 | Jun 2023   |

## **Capital Improvement Program MRF - Biological Selector Improvements**

**Description:** Construct modifications to the existing aeration basins to reduce sludge bulking, improve treatment, and reduce operation and maintenance costs at the Meadowlark Water Reclamation Facility (MRF).

Project Manager: Ryan Morgan Department: Engineering

Project: 2019100002 Funding Source: 100% Fund 250 - Reclaimed

**Comments:** Using biological modeling, this project will make improvements to the aeration basin operation and capacity. With the addition of a anaerobic selector to the existing aeration basin, overall treatment will improve, lowering operational costs. In addition flexibility will be added to the process by allowing treatment to occur without running the roughing filters. Infrastructure modifications will be made to the aeration basin including changing to ceramic disc diffusers and adding geo-membrane baffling, a new compressed air mixing system, and process control probes.

The construction of the biological selector will only proceed with an agreement from the current recycled water customers (City of Carlsbad and Olivenhain Municipal Water District) to reimburse the District through the Recycled Water Rates.

**Operations Impact:** Reduce operation and maintenance costs.

## Capital Improvement Program Richland Invert Replacement

**Description:** This project calls for the replacement of the existing 100-foot wastewater siphon pipeline that travels under San Marcos Creek from the Diamond Environmental Services parking lot south of Mission Road to the 18-inch Richland Interceptor. The existing 8-inch and 10-inch pipelines will be replaced with either a new 15-inch siphon to be located at the existing pipelines' location.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2012100002 Funding Source: 100% Fund 210 – Sewer Replacement

Work Order: 123749

Comments: The existing 8-inch and 10-inch invert pipelines were installed over 27 years ago and were originally designed to be temporary. Because of their size restrictions, surcharging occurs in the upstream gravity pipelines during peak flows. In addition, recent inspections by the District's Collections crew have revealed damage to the existing pipe. This project will evaluate whether a new, larger capacity siphon underneath the San Marcos Creek or a gravity line in the City right-of-way is the most cost effective option. If the creek crossing is selected, staff anticipates environmental wetland permitting will be required. The 2018 Master Plan has identified this replacement as project SP-10.

**Operations Impact:** The project increases sewage handling capacity in the collections system and solves an existing sewer surcharge issue during daily peak and wet weather events. Annual, routine sewer pipeline maintenance is expected with the completion of this project.

**Project Spending Plan** 

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22  | FY 22/23    | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |

## Capital Improvement Program District-wide SCADA Upgrade Project

**Description:** Upgrade SCADA Network, Software and Hardware Components.

Project Manager: Robert Salazar Department: Operations and Maintenance

**Project:** 2020100004 Funding Source: 51% Fund 110 – Water Replacement

49% Fund 210 - Sewer Replacement

#### **Comments:**

The District's existing Supervisory Control and Data Acquisition (SCADA) system is outdated and obsolete. Replacement parts are difficult to obtain, extremely expensive and technical support is no longer available. The existing hardware is 1970's technology and no longer compatible with current software operating systems. The new hardware will include SCADA radios and PLC's (Programmable Logic Controllers) that are Ethernet capable, allowing for faster data transfer rates. This new hardware and software will also allow remote access, which allows staff to program and troubleshoot the SCADA network from one central location. This will decrease the downtime of the network and reduce travel time to remote sites, saving staff time and improving efficiency. Security of the SCADA network will be much improved with this upgrade and Operations will be working with IT staff to ensure the District's cyber-security needs are met.

**Operations Impact:** Routine maintenance.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |

### Capital Improvement Program Meadowlark Failsafe Rehabilitation

**Description:** This project will install manholes to provide access to the pressured system for cured in place pipeline rehabilitation, repair, and/or replacement alternatives.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2020100005 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** The Meadowlark Failsafe Sewer Outfall is composed of approximately 9900 feet of 16-inch ductile iron pipe (DIP) installed in 1980 from Aviara Parkway and Palomar Airport Road to Yarrow Road and Camino Vida Roble in Carlsbad. Recent repairs in the Buena Reach have determined that there is a significant need to improve the condition of this pipeline. This project will install manholes to provide access to the pressured system for cured in place pipeline rehabilitation, repair, and/or replacement alternatives.

Buena Sanitation District is responsible for 50% of any repairs or improvements in the Buena Reach and a letter agreement as a rider to the 1980 agreement will be required. After project completion, we expect to receive \$580,000 in reimbursements.

**Operations Impact:** Improve maintenance access. Identify structural, flow capacity deficiencies, and potential repairs. Reduce risk of sewer spills. Annual and routine pipeline maintenance.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |

# **Capital Improvement Program Sage Canyon Tank Refurbishment**

**Description:** Sage Canyon Tank requires interior refurbishment.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2020100006 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The existing interior lining of the 3.7 million gallon (MG) tank has deteriorated and requires full refurbishment. This project will remove the existing lining and coating and install a new lining and coating. Structural repairs to the ceiling rafters and equipment upgrades may also be necessary.

Operations Impact: Prevent further delamination of the existing lining. Routine maintenance

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |

### **Capital Improvement Program Steel Pipeline Condition Assessment**

**Description:** Leverage the District's Asset Management Program to perform condition assessment on targeted areas of the District's highest priority steel water line. Results will be evaluated to minimize future replacement projects and reduce chances of emergency repairs.

Project Manager: Susan Bowman Department: Engineering

**Project:** 2020100007 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The District will plan and implement a phased, multi-year condition assessment program. This program will use pipeline condition assessment technology in conjunction with the District's Asset Management Program, to target specific areas in the District's steel (CML&C) water line system for evaluation. The program will determine whether pipelines are in need of repair, rehabilitation, or full replacement. Coordination with Operations staff will minimize disruption to customers and provide invaluable insight to developing work plans. Work plans will establish where pipe tools will be inserted into the water line to measure pipeline wall thickness. Results will be evaluated to maximize the beneficial use of the District's existing infrastructure.

**Operations Impact:** Reduce risk of water line breakage by identifying potential repairs. Extend the useful life of the existing water lines. Annual and routine pipeline maintenance.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

## **Capital Improvement Program Asset Management Replacement Schedule**

**Description:** Create a comprehensive Asset Management Plan integrating the District's own computerized maintenance management system (CMMS), prioritized Asset/Infrastructure replacement schedule, including condition assessment, for the District Facilities. This item is part of the VWD Strategic Plan – Strategic Focus Area 1.2.

Project Manager: Susan Bowman Department: Engineering

**Project:** 2014100004 **Funding Source:** 50% Fund 110 – Water Replacement 50% Fund 210 – Sewer Replacement

Comments: The District's infrastructure is aging and proper planning requires an understanding of when, where, and how much replacing that infrastructure will cost. Proper preventative maintenance helps ensure the District obtains the maximum beneficial life out of its infrastructure. The District has already taken steps towards this by implementing a computerized maintenance management system (CMMS) known as Maximo to implement and track preventative, corrective, and emergency maintenance/repairs on all assets/ infrastructure. This project will take the CMMS, Geographical Information System (GIS) and condition information to develop an Asset Management Plan that will provide a prioritized, risk-based replacement schedule with cost estimates over the expected life of all assets/infrastructure. This, plus a Business Risk Exposure analysis and performance of condition assessments on infrastructure, will help the the Asset Management Plan identify future renewal and replacement projects.

**Operations Impact:** An Asset Management Plan with schedule will help to prevent costly line breaks, prioritize resource allocation, improve efficiency and reduce overall asset lifecycle costs.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|-----------|-----------|-----------|----------|--------------------------|-----------|
| Planning      | \$154,000            | \$100,000 | \$50,000  | \$50,000  |          |                          | \$354,000 |

## **Capital Improvement Program MRF - Tertiary Structural Rehab and Repairs**

**Description:** The Tertiary Treatment Area at the Meadowlark Water Reclamation Facility (MRF) requires rehabilitation and repairs to the influent chamber, an associated air line, a joint seal and pipe opening to Filter Basin No. 3, the existing sluice gate located in the Chlorine Contact Tank - Effluent and Backwash Pump Station, and various related areas.

Project Manager: Ryan Morgan Department: Engineering

Project: 2018100011 Funding Source: 100% Fund 250 - Reclaimed

**Comments:** The Meadowlark Water Reclamation Facility's (MRF) Tertiary Treatment Area needs various repairs due to the corrosive nature of the treatment process. The existing high solids epoxy coating the tertiary influent chamber is failing. A stainless steel mixing air line inside the chamber has also developed leaks. Using bypass methods, the chamber's protective lining will need to be repaired and the airline replaced. Associated with the tertiary influent chamber is a concrete mixer platform that has deteriorated and will need to be replaced with new steel beams and platform.

Downstream from the influent chamber are six tertiary filter basins. The joint seal in Filter Basin No. 3 is failing, resulting in corrosion to a pipe opening at the bottom of the filter and corrosion to the associated pipe located outside of the basin in the Filter Pipe Gallery. This isolated area will need to be repaired and recoated. All work will need to be scheduled during low production of recycled water.

The existing sluice gate in the Effluent and Backwash Pump Station, which is used to isolate tertiary flows in the Chlorine Contact Tank, is non-functional. The sluice gate needs to be replaced to restore operational use of this equipment.

To get more competitive pricing, and due to the coordinated scheduling of the related work, these individual repairs will be grouped together under one construction contract.

**Operations Impact:** Restore operational functionality. Maintains the integrity of tertiary treatment area and operational processes. Normal maintenance.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|-----------|----------|----------|----------|--------------------------|-----------|
| Planning      | \$3,000              |           |          |          |          |                          | \$3,000   |
| Design        | \$50,000             |           |          |          |          |                          | \$50,000  |

### Capital Improvement Program North Twin Oaks Tank No. 1 Refurbishment

**Description:** North Twin Oaks Tank No. 1 requires interior and exterior refurbishment.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2019100003 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** North Twin Oaks Tank No. 1 was built in 1961 off El Paso Alto and was last inspected in 2010 and 2015. The existing interior lining and exterior coating of this 0.6 million gallon (MG) tank has deteriorated and requires full refurbishment. This project will remove the existing interior lining and exterior coating and install new linings and coatings. Due to the age of the tank and level of deterioration, repairs to the ceiling rafters or replacement may be necessary as well as upgrades to the safety and cathodic protection equipment. The existing antenna will also be relocated off the tank and remote communication equipment upgraded.

**Operations Impact:** Prevent further deterioration of the existing linings and coatings. Improved safety. Routine Maintenance.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

### Capital Improvement Program Land Outfall West Condition Assessment

**Description:** The western segment of the sewer Land Outfall is in need of a condition assessment to evaluate for future cleaning, rehabilitation, and/or repair projects

Project Manager: Susan Bowman Department: Engineering

**Project:** 2020100009 Funding Source: 100% Fund 210 – Sewer Replacement

Work Order: 212368

Comments: The existing sewer Land Outfall pipeline was installed in 1986 and connects the District's Lift Station No.1 to the Encina Water Pollution Control Facility (EWPCF). The 34,000 foot long pipeline has both gravity and pressurized segments. While some eastern segments, between Melrose Drive and Acacia Drive were replaced in 2006, there has been no evaluation of the western portion of the Land Outfall from El Camino Real to the EWPCF. This project will evaluate through closed-circuit television (CCTV) inspection the condition of approximately 16,700 feet of sewer pipeline ranging in size from 30-inch to 54-inch.

As joint partners in the Land Outfall, this project will require coordination with the City of Carlsbad and the Buena Sanitation District (Vista). After project completion, we expect to receive \$256,000 in reimbursements.

**Operations Impact:** Reduce the risk of sewer spills. Routine maintenance.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|-----------|----------|----------|----------|--------------------------|-----------|
| Planning      |                      | \$17,000  |          |          |          |                          | \$17,000  |
| Design        |                      | \$12,000  |          |          |          |                          | \$12,000  |
| Construction  |                      | \$580,000 |          |          |          |                          | \$580,000 |
| Total         | \$0                  | \$609,000 | \$0      | \$0      | \$0      | \$0                      | \$609,000 |

## **Capital Improvement Program Ductile Iron Pipe Condition Assessment**

**Description:** Leverage the District's Asset Management Program to perform condition assessment on targeted areas of the ductile iron pipe system that have been experiencing breaks in recent years. Results will be evaluated to minimize future replacement projects and reduce chances of emergency repairs.

Project Manager: Susan Bowman Department: Engineering

**Project:** 2020100010 Funding Source: 100% Fund 110 – Water Replacement

Comments: The District will plan and implement a phased, multi-year condition assessment program. This program will use pipeline condition assessment technology in conjunction with the District's Asset Management Program, to target specific areas in the ductile iron pipe (DIP water line system for evaluation. The program will determine whether pipelines are in need of repair, rehabilitation, or full replacement. Coordination with Operations staff will minimize disruption to customers and provide invaluable insight to developing implementation plans. Implementation plans will establish where pipe tools will be inserted into the water line to measure pipeline wall thickness. Results will be evaluated to maximize the beneficial use of the District's existing infrastructure.

**Operations Impact:** Reduce risk of water line breakage by identifying potential repairs. Extend the useful life of the existing water lines, reduce operational costs of annual and routine pipeline maintenance.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|-----------|-----------|-----------|----------|--------------------------|-----------|

# Capital Improvement Program Palos Vista Pump Station - Motor Starters Upgrade

**Description:** Upgrade four auto-transformer motor starters to solid state soft starters.

Project Manager: Robert Salazar Department: Mechanical/Electrical

**Project:** 2020100011 Funding Source: 100% Fund 110 – Water Replacement

#### **Comments:**

Replace four auto-transformer motor starters. Replacement is required due to wear from a long service life of over 25 years and a lack of support for replacement parts. New solid state soft starters will improve reliability and operating efficiency of electric motors.

**Operations Impact:** Routine maintenance.

### **Project Spending Plan**

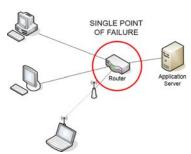

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|----------|----------|----------|----------|--------------------------|-----------|
| Planning      | \$5,000              |          |          |          |          |                          | \$5,000   |
| Design        |                      | \$33,000 |          |          |          |                          | \$33,000  |

### **Capital Improvement Program** Redundancy for Admin. Wireless Radio Network

**Description:** The District provides network connectivity between facilities via wireless radio infrastructure. Additional redundancy of radio network is necessary in order to provide continuity of data communications between sites in the event of a radio failure.

Project Manager: Matias Labarrere **Department:** Information Technology

**Project:** 2020100022 **Funding Source:** 51% Fund 110 – Water Replacement 49% Fund 210 - Sewer Replacement

Comments: Upgrades to District Wireless Radio network. Additional radio stations are needed to support redundancy of

data communications between the following district locations: Admin/Operations Buildings, Meadowlark Reclamation Facility, Twin Oaks Reservoir. Current Administrative Wireless radio architecture has a single point of failure - one fault or malfunction will cause the entire communications system to stop operating in the event of a single radio outage.

**Operations Impact:** Additional redundancy must be added to the Administrative radio network in order to provide continuity of data communications in the event of radio failures.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

## Capital Improvement Program Las Posas Water Line Replacement

**Description:** Replace an existing 10-inch water line crossing underneath an existing double reinforced box culvert on Las Posas Road.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2018100004 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** A 10-inch ductile iron (DIP) water main underneath a double reinforced box culvert (RBC) on Las Posas Road, between Linda Vista Drive and Stone Drive is aging and in need of replacement. It has experienced a break in recent years and control valves associated with this water main are non-operational. The replacement will involve installing a new parallel PVC water main in a steel casing and reconnecting to the existing asbestos-cement pipe (ACP) located on either side of the double RBC.

**Operations Impact:** Prevent future breaks. Routine maintenance.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22  | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

| Jun 2017         | Jun 2018 | Oct 2021 | Nov 2021 | Feb 2022 | Mar 2022     | Jun 2022 | Jun 2022   |

# **Capital Improvement Program Rock Springs Valve Replacement**

**Description:** Replace the existing 12-inch and 14-inch valve cluster at Rock Springs Road and Bennet Avenue and associated piping. The valves are non-operational and the nearby pipeline has failed in recent years

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2016100007 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** This project will allow proper control of the water system and reduce the number of customers affected during a pipeline failure.

**Operations Impact:** The valves are non-operational. Operations and maintenance repair costs will be minimized at this location.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|----------|----------|-----------|----------|--------------------------|-----------|

### Capital Improvement Program Via Vera Cruz Tank Hill Stabilization

**Description:** A side slope adjacent to the Via Vera Cruz Tank requires slope stabilization treatment.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2016100014 Funding Source: 100% Fund 110 – Water Replacement

Work Order: 162901

**Comments:** A portion of the existing slope adjacent to the Via Vera Cruz Tank on District property is failing due to steep terrain and material composition. The foundation of a property line fence is being eroded and exposed and material washes down to the tank elevation. Routine clean-up of the area is done and falling rocks threaten to damage the tank. Phase 1 of the project installed a rigid barrier at the toe of slope along a portion of the perimeter to catch failing rocks. Phase 2 will apply a mesh or tensioned slope stabilization system to approximately 2200 square feet (SF) of steep slope to prevent further failures. Repairs to the property line fence will also be performed and landscaping repairs may be necessary.

**Operations Impact:** Reduced risk of damage to the tank from falling rocks. Eliminate clean-up of the area from debris. Maintain security of property with intact fence. Annual and routine monitoring of the slope.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24  | FY 24/25 &<br>Thereafter | Total     |

# **Capital Improvement Program Fire Services - Backflow Preventer Upgrades**

**Description:** Replace single-check backflow prevention systems with double-check systems on fire services.

Project Manager: Kevin Anctil

Department: Construction

**Project:** 2017100005 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The District is responsible for several fire service backflow preventers in the distribution system that were installed prior to new District standards being adopted. The single-check backflow preventers that were installed are no longer an acceptable device and some have failed due to corrosion from being installed in an underground vault. The Construction department will replace 5 systems each year with an approved double-check backflow prevention system and bring the services above ground.

**Operations Impact:** Enhanced backflow prevention. Routine maintenance.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

# Capital Improvement Program DHS- Upgrades for Critical Infrastructure Hardware

**Description:** The Department of Homeland Security (DHS) performed an audit of the District Industrial Control System (ICS) Information Technology Network on 11/27-28/2018. Audit As a result of the audit, several recommendations were provided to enhance system architecture on the Supervisory Control and Data Acquisition (SCADA) network. Initiatives contained within this CIP aim to strengthen the cybersecurity posture of the District's industrial control systems (ICS).

Project Manager: Matias Labarrere Department: Information Technology

Comments: As a core part of its mission to reduce risk to the Nation's critical infrastructure (CI), Department of Homeland Security (DHS) National Cyber Assessments and Technical Services (NCATS) subject matter experts provide cybersecurity assessments to CI asset owners and operators to strengthen the cybersecurity posture of their industrial control systems (ICS). NCATS on behalf of the National Cybersecurity and Communications Integration Center (NCCIC) provides voluntary assessments based on standards, guidelines, and best practices. The assessment methodology provides a structured framework that asset owners and operators can leverage to evaluate and validate the cybersecurity of their ICS networks. The information gained from these reviews provided the District with additional understanding and context necessary to build effective defense-in-depth processes for enhancing our cybersecurity posture. The DHS team worked directly with the information technology (IT), operations technology (OT), and management staff at the VWD facilities to determine the overall cybersecurity posture of its ICS. DHS recommends physical isolation of the control systems network from the business network.

Hardware upgrades contained within this CIP are broken down in the following manner:

Creation of an isolated system for SCADA/ICS - \$151,440 Backup/Disaster Recovery of isolated SCADA/ICS system - \$80,260 Remote Monitoring/Support - \$7,500

**Operations Impact:** Hardware upgrades contained within this CIP aim to strengthen the cybersecurity posture of the District's industrial control systems (ICS) per DHS recommendations.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|-----------|----------|----------|----------|--------------------------|-----------|
| Planning      |                      | \$44,000  |          |          |          |                          | \$44,000  |
| Design        |                      | \$44,000  |          |          |          |                          | \$44,000  |
| Construction  |                      | \$151,000 |          |          |          |                          | \$151,000 |

### **Capital Improvement Program Technology Infrastructure Upgrades**

**Description:** Replacement or upgrades of District technology infrastructure. Includes servers, networking equipment (wired/wireless), security appliances, and supporting infrastructure management solutions.

Project Manager: Matias Labarrere Department: Information Technology

**Project:** 2020100023 **Funding Source:** 51% Fund 110 – Water Replacement 49% Fund 210 - Sewer Replacement

**Comments:** Secure and reliable technical infrastructure is mission critical to District operations and service to the public. Serious disruptions or costly unplanned emergency repairs can occur if end-of-life/end-of-support systems are not upgraded or replaced in a timely manner, resulting in reduced productivity and service levels.

**Operations Impact:** Replacement of end-of-life equipment is necessary to ensure continuity of business operations.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

| Jul 2019         |          |     |        |     |              |     | Jun 2022   |

## Capital Improvement Program Door Access Control System Expansion -MRF & Mahr

**Description:** Access control for a total of thirty-nine (39) doors between Meadowlark Reclamation, Mahr, and Administrative facilities.

Project Manager: Matias Labarrere Department: Information Technology

**Comments:** There is a need to convert keyed locks at Meadowlark Reclamation, Mahr, and Administrative buildings to keyless entry and add them to our existing BlueWave access control system. This upgrade will allow dual access to doors through the use of a fob or a security code and will eliminate the need for keys at Meadowlark, Mahr, and Administrative buildings. This initiative will allow for improved control over access to VWD facilities while minimizing reliance on the management of physical keys.

Upgrades contained within this CIP are broken down in the following manner:

Access Control upgrades for Administrative Building - \$30,000

Access Control upgrades for Meadowlark and Mahr Facilities - \$110,000

Re-Key of existing locks for Administrative Building - \$5,000

Re-Key of existing locks for Meadowlark and Mahr Facilities-\$5,000

**Operations Impact:** Increased security, time savings, and eliminate the cost of replacing keys

**Project Spending Plan** 

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

# Capital Improvement Program Upgrades to Surveillance Video Management System

**Description:** Upgrades to existing Video Recording systems are required to obtain additional coverage, fidelity, and performance of the District's centralized recording system.

Project Manager: Matias Labarrere Department: Information Technology

**Comments:** Upgrades to the District's video recording systems have been recommended by the manufacturer. Longrange IR illuminators and additional cameras are recommended to provide additional coverage for dimly lit facilities. Current limitations of installed hardware adversely affect the quality of video recording during the night.

**Operations Impact:** Increased security, resiliency, and performance of existing video recording system.

### **Project Spending Plan**

# **Capital Improvement Program MRF - Site Lighting Upgrade and Repairs**

**Description:** Replace three light poles and existing outdoor High Pressure Sodium (HPS), Low Pressure Sodium (LPS) and Metal Halide lighting fixtures with LED fixtures.

Project Manager: Robert Salazar Department: Mechanical/Electrical

Project: 2020100024 Funding Source: 100% Fund 250 - Reclaimed

#### Comments:

Replacing existing outdoor lighting fixtures with LED fixtures will provide improved security and safety lighting at night for District staff.

LED fixtures will be more energy efficient and reduce operating and maintenance costs. There are currently three lighting poles that require replacement due to corrosion and deterioration at the bases.

**Operations Impact:** Routine maintenance.

### **Project Spending Plan**

# **Capital Improvement Program HVAC Communication Upgrade**

**Description:** Upgrade the District's HVAC control communication to an updated and user-friendly system. This will enable the District to control the HVAC system remotely, with non-proprietary restraints.

Project Manager: Dennis Bowman Department: Warehouse/Purchasing

**Project:** 2020100015 Funding Source: 51% Fund 110 – Water Replacement

49% Fund 210 - Sewer Replacement

**Comments:** The current Trane HVAC system is 22 years old. The system routinely fails and finding technicians trained to work on the outdated systems is expensive and cumbersome. Currently, we are unable to remote in and troubleshoot any issues; preventing us from making any modifications to the system.

**Operations Impact:** Facilities Maintenance and Information Technology meeting with contractors. Occasional HVAC service disruptions while the system is being upgraded.

### **Project Spending Plan**

# **Capital Improvement Program Building B Laminate Floor Replacement**

**Description:** The flooring in B building is peeling up. To prevent trip hazards this project will thoroughly seal the concrete below and lay the new laminate.

Project Manager: Dennis Bowman Department: Warehouse/Purchasing

**Project:** 2017100009 Funding Source: 51% Fund 110 – Water Replacement

49% Fund 210 - Sewer Replacement

**Comments:** Remove old flooring, seal concrete, and install new flooring.

**Operations Impact:** None

### **Project Spending Plan**

# **Capital Improvement Program Update Restrooms to ADA Compliance**

**Description:** Remove and replace the current counters, sinks, mirrors, and paint. Fire system lights are a requirement to install in the restroom for compliance.

Project Manager: Dennis Bowman Department: Warehouse/Purchasing

**Project:** 2020100021 **Funding Source:** 51% Fund 110 – Water Replacement 49% Fund 210 - Sewer Replacement

**Comments:** The restrooms need new counters, sinks, mirrors, and paint. When quotes were solicited for these updates, we were informed certain locations were not ADA compliant. The two areas of concern are the Lobby and Engineering restrooms.

**Operations Impact:** Certain restrooms will be down while under construction.

### **Project Spending Plan**

### Capital Improvement Program District Wide Solar

**Description:** The District entered into a power purchase agreement in November, 2019 to develop new solar sites which will ultimately reduce future energy costs. An independent third party will build, maintain, and operate the solar installations at no cost to the District. The PPA generates a reduced electric rate for 25 years resulting in net savings to the District with no capital contributions.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2020100014 **Funding Source:** 51% Fund 110 – Water Replacement 49% Fund 210 - Sewer Replacement

**Comments:** The District entered into a power purchase agreement in November, 2019 to develop new solar sites which will ultimately reduce future energy costs at the following two locations:

- 1. Net Energy Metering at Lift Station No. 1
- 2. RES-BCT Project at Twin Oaks Reservoirs 1 & 2 Site

A Power Purchase Agreement (PPA) was established between an independent third party that will build, maintain and operate the solar installations at both sites over a period of 25 years. The PPA will provide a significantly reduced electric rate to select District meters over this term, resulting in a net savings to the District at no capital investment. The project is moving into construction, with both projects anticipated for completion in the winter of 2020.

**Operations Impact:** Savings in District's monthly payments to electrical utility over the lifetime of the PPA.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

## **Capital Improvement Program Water Operations Control Room Upgrades**

**Description:** Replacement of the Water Operations SCADA console, floors and paint. New SCADA software and display screens will be used for enhanced distribution system control and security camera monitoring operations. This will comply with DHS recommendations and the District's VA.

Project Manager: Shawn Askine Department: Water Operations

**Project:** 2020100019 Funding Source: 100% Fund 110 – Water Replacement

Comments: VWD staff is working on a District-wide Supervisory Control and Data Acquisition (SCADA) upgrade that is compliant with the Department of Homeland Security (DHS) recommendations. The Water Operations control room console was constructed in 1997. This console was designed to hold the old style, square monitors and does not allow the use of the current wide screen technology monitors. The replacement console design will allow the use of wide screen monitors and have an option for an ergonomic sit/stand station. The new console will also allow for the additional screens needed to monitor security cameras throughout the distribution system, located in areas identified in the District's Vulnerability Assessment (VA). The control room floor is worn and will be replaced before installing the replacement console. The Water Operations control room and offices will also be painted at this time.

**Operations Impact:** Improved SCADA control systems and security monitoring. Routine maintenance.

# Capital Improvement Program Encina Wastewater Authority Five Year Plan

**Description:** The District is a member agency of the Encina Wastewater Authority (EWA). The District shares in the cost of planned asset replacements and capital acquisitions.

Project Manager: Wes Owen Department: Finance

**Project:** 2021100001 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: These miscellaneous capital projects are budgeted each year

Operations Impact: No significant increase in costs or changes in efficiencies are anticipated from this project..

### **Project Spending Plan**

## Capital Improvement Program Land Outfall Parallel Sewer Section A

**Description:** The existing 20 to 24-inch Siphon Section A, and 30-inch Gravity Section A of the Land Outfall are under capacity and will require a parallel 30-inch pipeline and a new 42-inch pipe to be installed.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2021100002 Funding Source: 100% Fund 220 – Sewer Capacity

Comments: The Land Outfall comprises approximately 34,000 feet of sewer pipe (total) installed in 1985, connecting Lift Station No. 1 to the Encina Water pollution Control Facility. The Siphon Section A comprises approximately 12,000-feet of 20 to 24-inch ductile iron pipe (DIP) and operates as a pressurized inverted siphon. The Siphon Section A corridor begins just west of Acacia Drive and ends just east of El Camino Real. Currently Siphon Section A is overcapacity during peak wet weather flow conditions. A 30-inch siphon pipeline, parallel to Siphon Section A, needs to be installed to provide additional capacity and to accommodate ultimate build out demands.

Approximately 1,500 feet of existing 30-inch vitrified clay pipe (VCP), referred to a Gravity Section A, was installed in 1985 as part of the 34,000 foot Land Outfall project, which connects Lift Station No. 1 to the Encina Water pollution Control Facility. Gravity Section A is currently under capacity for build out demands and will need to be replaced with new 42-inch PVC.

**Operations Impact:** Reduce the risk of sewer spills. Increase capacity. Routine maintenance.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23    | FY 23/24     | FY 24/25 &<br>Thereafter | Total        |

## Capital Improvement Program 16-Inch Emergency Bypass Pipeline Rehabilitation

**Description:** Rehabilitate approximately 4550 feet of existing 16-inch reinforced plastic mortar sewer pipeline with a cured-in-place-pipe (CIPP) liner and replace necessary control valves and appurtenances to operate the line. Provide new access locations at incremental lengths along the alignment.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2021100003 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: The 16-inch Emergency Bypass pipeline was installed in 1969 and connects to the District's 24-inch Land Outfall pipeline in the City of Carlsbad. The pipeline extends from Melrose Drive near Poinsettia Lane and follows a natural canyon easterly to Rancho Santa Fe Road near Via Cancion. The pipeline is primarily composed of reinforced plastic mortar (RPM) pipe, commonly referred to as "Techite", with some section of ductile iron pipe (DIP). The pipeline, controlled by a series of valves, serves as an emergency bypass of sewer flows to and from the Meadowlark Water Reclamation Facility (MRF) and the Land Outfall pipeline to the Encina Water Pollution Control Facility (EWPCF) in Carlsbad. Due to age, material, and corrosive environment, the pipeline has suffered breaks in recent years and several of the control valves no longer function. this project will install access to install a cured-in-place-pipe (CIPP) liner and replace appurtenances as needed.

**Operations Impact:** Restore operation to broken valves and increase life of the bypass sewer line.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21    | FY 21/22  | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |

# Capital Improvement Program MRF Headworks - Upgrade/Replace Equipment

**Description:** Replace existing channel grinders, frames, augers and control panels.

Project Manager: Robert Salazar Department: Mechanical/Electrical

**Project:** 2021100004 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** Vallecitos staff consulted with Misco Water & JWC Environmental to evaluate the existing augers, grinders and flow conditions at the Meadowlark Reclamation Facility (MRF) Headworks. The companies provided their recommendations to update/upgrade existing equipment to satisfy current and future wastewater flow conditions at MRF. This project will replace the existing equipment per their recommendations in order to provide increased efficiency and reliability at the MRF Headworks.

**Operations Impact:** Routine maintenance.

### **Project Spending Plan**

## Capital Improvement Program Coronado Hills Tank Exterior Refurbishment

**Description:** Coronado Hills Tank requires exterior refurbishment.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2021100005 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The existing exterior coating of the 2.6 million gallon (MG) tank has deteriorated and requires full refurbishment. As part of the refurbishment, some equipment upgrades may be necessary.

**Operations Impact:** Prevent further deterioration of the exterior coating and corrosion of the metal tank shell. Routine maintenance.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|----------|----------|-----------|----------|--------------------------|-----------|
| Planning      |                      | \$5,000  |          |           |          |                          | \$5,000   |

## Capital Improvement Program MRF Direct Potable Reuse

**Description:** VWD would like to explore the feasibility of repurposing or expanding MRF Plant Capacity and providing potable reuse

Project Manager: Rob Scholl Department: Engineering

**Project:** 2021100006 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** The Meadowlark Water Reclamation Facility (MRF) currently provides approximately 4 MGD of recycled water to the Olivenhain Municipal Water District and the City of Carlsbad. VWD would like to explore the feasibility of repurposing some of this capacity, or expanding MRF, to create potable water for distribution to VWD's water customers. The evaluation is the first step in determining if this concept is technically and financially feasible.

**Operations Impact:** Potential to provide alternative water supply source

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

| Jul 2020                | Jul 2020 | Jun 2022 | Jul 2022 | Jun 2023 | Jul 2023 | Jun 2024 | Jun 2024   |

### **Capital Improvement Program** Rancheros Drive Sewer Replacement

**Description:** The project will include identifying alternative alignments, bypass pumping, and sewer replacement with District approved materials.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2021100007 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** The Rancheros Drive sewer includes approximately 700-feet of corroded ductile iron pipe originally installed in 1972. Severe corrosion has compromised the structural integrity of the pipe wall and collections is no longer able to safely clean and maintain the sewer.

**Operations Impact:** Collections will have the ability to clean and maintain the Rancheros Drive Sewer upon completion of the project.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

| Mar 2020                | Jan 2021 | Dec 2021 | Jan 2022 | Jan 2022 | Sep 2022     | Dec 2022 | Jan 2023   |

# **Capital Improvement Program Coggan Pump Station - Generator**

**Description:** Install new permanent generator with automatic transfer switch.

Project Manager: Robert Salazar Department: Mechanical/Electrical

**Project:** 2021100008 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** Coggan Pump Station has no permanent generator for emergency power. To insure reliability to this facility, an Air Pollution Control District (APCD) / California Air Resources Board (CARB) compliant generator will need to be installed at the station. Improvements will also include an automatic transfer switch, enclosure, concrete pad, and conduit.

**Operations Impact:** Provide reliability to the pump station in the event of a power failure. Routine maintenance.

### **Project Spending Plan**

## Capital Improvement Program MRF - Odor Scrubber #1 Replacement

**Description:** Replace existing Odor Scrubber #1.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

**Project:** 2021100009 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: Odor Scrubber #1 is over 10 years old and is showing signs of degradation. The components required to maintain reliable operation are in need of constant repair and maintenance. The odor scrubber is required to be in operation 24/7 in order to comply with the Air Pollution Control District's (APCD) permit. As the odor scrubber continues to age and degrade, compliance with the APCD regulations will be increasingly difficult to achieve. The odor scrubber reduces and/or eliminates odors from various plant processes that would otherwise be released to the atmosphere. The odor scrubber also reduces the corrosion effects of hydrogen sulfide gas and is a part of the District's efforts in maintaining good neighbor relations by abating offensive odors.

**Operations Impact:** A new odor scrubber will provide greater reliability for odor control and meet APCD permit requirements.

#### **Project Spending Plan**

# Capital Improvement Program Building A Roof Replacement

**Description:** The roof on building A has had several leaks. After a thorough inspection it was determined that the roof needs to be replaced.

Project Manager: Wes Owen Department: Warehouse/Purchasing

**Project:** 2021100010 Funding Source: 51% Fund 110 – Water Replacement

49% Fund 210 - Sewer Replacement

**Comments:** Re-roof building A salvaging existing tiles where possible.

**Operations Impact:** None

### **Project Spending Plan**

# Capital Improvement Program District-wide Valve Replacement Program

**Description:** Replace broken or leaking valves throughout the District.

Project Manager: Kevin Anctil

Department: Construction

**Project:** 2021100011 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The valve crew has discovered many broken valves requiring replacement. This project is to replace 25 to 30 valves in the next fiscal year.

**Operations Impact:** Improved ability to isolate water mains with less impact to customers. Routine maintenance.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

# **Capital Improvement Program MRF - Uninterruptible Power Supply Installation**

**Description:** Installation of a Uninterruptible Power Supply for lab equipment in the MRF Control building.

Project Manager: Robert Salazar Department: Mechanical/Electrical

**Project:** 2021100012 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** Install an Uninterruptible Power Supply (UPS) to feed backup power to electrical Panel 'B' which feeds power to the Meadowlark Reclamation Facility (MRF) lab area and equipment. During monthly generator exercises and unplanned power outages, lab instruments and equipment with sensitive electronic components can be affected by power surges. In addition, two receptacle circuits feeding power to the SCADA computers in the Control room will be re-fed from Panel 'A' to Panel 'B' to be protected on the UPS.

**Operations Impact:** Routine maintenance.

#### **Project Spending Plan**

# Capital Improvement Program City of San Marcos Joint Projects Relocate/Adjust

**Description:** This amount is set-aside to cover services rendered in conjunction with various City of San Marcos projects involving District infrastructure per the District/City of San Marcos Cost Sharing Agreement dated March 31, 2009. This includes District staff time involved in inspection and project management, as well as reimbursements to the City for District infrastructure relocations and adjustments.

Project Manager: Rob Scholl Department: Engineering

Project: 2021100013 Funding Source: See Below

#### Comments:

Miscellaneous relocations/adjustments resulting from City of San Marcos joint projects.

These projects are in conjunction with the City's Capital Improvement Plan. Currently one project is proposed:

San Marcos Boulevard and Discovery Street

**Operations Impact:** Normal maintenance for infrastructure.

# Capital Improvement Program South Lake - Ultrasonic Algae Control System

**Description:** Installation of an ultrasonic algae control system at South Lake Reservoir.

Project Manager: Shawn Askine Department: Water Operations

**Project:** 2021100014 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The MPC-Buoy by LG Sonic is an ultrasonic algae control system that will be used to help reduce the amount of algae growth in the water stored in South Lake Reservoir. The ultrasonic device is a floating solar-powered system that combines real-time water quality monitoring and ultrasonic sound waves to control algae effectively. Using ultrasound to control the growth of algae in South Lake Reservoir means less chemicals will need to be used to maintain water quality.

**Operations Impact:** Reduced chemical usage and improved water quality.

### **Project Spending Plan**

# **Capital Improvement Program MRF - Replacement of Valve Actuators**

**Description:** Replacement of tertiary effluent valve actuators.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

Project: 2021100015 Funding Source: 100% Fund 250 - Reclaimed

**Comments:** The tertiary effluent valve actuators constantly modulate the effluent valves to maintain the tertiary filter level. This constant modulation puts excessive wear on the actuator and over time the actuator will wear out. These actuators are over ten years old and need to be replaced. Replacing the current actuators with the more industrial actuators will provide a much longer lifespan and provide more accurate valve operation and positioning.

**Operations Impact:** Improve the precision of the valves' position and provide a longer lifespan of the modulating actuators.

### **Project Spending Plan**

| Jul 2020         |          |     |        |     |              |     | Jun 2021   |

### Capital Improvement Program MRF - Flow Control Valve and Actuator

**Description:** Installation of a valve and actuator for primary skimmer failures.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

**Project:** 2021100016 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: In the event of a primary skimmer failure in a skimming position, water would be allowed to flow unrestricted to the solids wet well. The high volume of water and skimming material would overflow the solids wet well. This prevents Meadowlark staff from being able to keep the primary skimming system running in auto 24/7. Staff currently places the primary skimmers in the off position at the end of working hours. This creates a buildup of scum and debris which in turn leads to offensive odors, septic conditions, and a potential increase of loading on the system. The buildup of scum and debris that accumulates after hours requires more staff time to skim and clean. The installation of the actuator and valve in the primary skimmer line would allow for the remote isolation of the line during a skimmer failure. With the actuator and valve in place, the primary skimming system would be able to run in automatic operation 24/7. Response to an after hours primary skimmer failure with the valve and actuator in place would eliminate potential spills from the solids wet well.

**Operations Impact:** The installation of the valve and actuator will improve operations and help to control odors.

#### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

# Capital Improvement Program VWD Headquarters: Asphalt Repair & Sealcoat

**Description:** Repair the damaged asphalt and apply sealcoat at the VWD Headquarters.

Project Manager: Kevin Anctil

Department: Construction

**Project:** 2021100017 **Funding Source:** 51% Fund 110 – Water Replacement 49% Fund 210 - Sewer Replacement

**Comments:** The VWD main facility, including the customer parking area and Operations yard, needs asphalt repair and sealcoating. The asphalt in the Operations yard has areas that are damaged and need to be repaired. The damaged areas will be repaired and the entire facility will be sealcoated to protect the asphalt and extend its useful life. The striping for parking areas will be performed after the sealcoating is completed.

**Operations Impact:** This work will be completed on the weekend to limit impact to customers, employees and normal operations.

#### **Project Spending Plan**

# Capital Improvement Program SSO Training Facility

**Description:** Installation of an SSO (Sanitary Sewer Overflow) Training Facility in the VWD yard.

Project Manager: Eric Garcia Department: Construction

**Project:** 2021100018 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: The SSO (Sanitary Sewer Overflow) Training Facility in the VWD yard will be used for training Wastewater Collection Systems crews how to respond during an SSO. It will help them prepare for a real event by determining the flow in gallons per minute (GPM). It will also be used to train the crew in how to respond, set up traffic control, and to evaluate the best methods, equipment, and materials needed to contain and recover an SSO. How to clean up and properly document the event will also be a part of this training. The Regional Water Quality Control Board requires this training and documentation on how we estimate the SSO flow in GPM. This training facility will assist us in providing a more accurate total volume estimation during an actual SSO by observing a controlled and metered release at various flow rates.

**Operations Impact:** This will help train the Wastewater Collection Systems crews on SSO response and estimations.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

# **Capital Improvement Program MRF - Fall Protection Grating Installation**

**Description:** Fall protection grating to be installed in the primary clarifier access hatches.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

**Project:** 2021100019 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** The primary sedimentation basins at the Meadowlark Reclamation Facility (MRF) have numerous access hatches of various sizes. The hatches serve as an access point for maintenance and cleaning. Opening a hatch creates a fall hazard requiring some form of fall protection. With grating and supports installed, staff can safely open the hatches as needed without the need for any further fall protection devices. Without the grating, staff will need to purchase, install, and maintain a fall arrest system in order to perform normal operational duties at the primary basins. These systems are cumbersome and are required to be reconfigured each time a hatch is opened. The fall protection grating creates a walking surface which will prevent staff from falling into a basin.

**Operations Impact:** The installation of the grating will provide a safe working surface for staff.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

| Project Approval | Planning |     | Design |     | Construction |     | Completion |
|------------------|----------|-----|--------|-----|--------------|-----|------------|
|                  | Begin    | End | Begin  | End | Begin        | End |            |
| Jul 2020         |          |     |        |     |              |     | Jun 2021   |

# Capital Improvement Program Meadowlark FCF - Water Quality Analyzer

**Description:** Installation of an analyzer that will provide real-time water quality data via the District's SCADA system.

Project Manager: Shawn Askine Department: Water Operations

**Project:** 2021100020 Funding Source: 100% Fund 110 – Water Replacement

Comments: Staff will be installing a water quality analyzer at the Meadowlark Flow Control Facility (FCF). This device will give the Water Distribution Operators the ability to monitor water quality continuously and provide real-time information concerning the water distribution system. Staff has been working with a vendor to develop a system for Vallecitos that measures chlorine residual and pH. The package also includes a sample return pump. This analyzer does not use chemical reagents which allows the water to be returned to the distribution system. State regulations prohibit chlorinated water to be released to the storm drain. Returning the sample water to the distribution system keeps the District in compliance with discharge requirements and recently enacted water conservation regulations.

**Operations Impact:** Continuous monitoring of water quality in the distribution system.

### **Project Spending Plan**

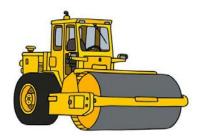

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

# Capital Improvement Program Richland Tank II: Asphalt Repair and Sealcoat

**Description:** Repair the damaged asphalt and apply sealcoat at the Richland Tank II site.

Project Manager: Kevin Anctil

Department: Construction

**Project:** 2021100021 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** Repair damaged areas and sealcoat the asphalt at the Richland Tank II site. The asphalt has cracks, root damage and potholes. The asphalt patches will be completed and then the area will be sealcoated to extend the life of the asphalt.

**Operations Impact:** No impact to operations.

### **Project Spending Plan**

# Capital Improvement Program Twin Oaks Reservoir - Safety Climb System

**Description:** Install ladder climbing system on the salt tank at the Twin Oaks Reservoir Facility to provide a safe work environment for staff.

Project Manager: Shawn Askine Department: Water Operations

**Project:** 2021100022 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The existing ladder climbing system on the salt tank at the Twin Oaks Reservoir Facility does not meet the current code for climbing and fall protection. The tank access port is at the top of the tank and access to this port is done periodically to observe salt level distribution and during salt deliveries. The new ladder climbing system will have the proper climbing devices and will include a railing at the top of the tank to provide a more secure and safe system as the port is being accessed.

**Operations Impact:** Improved safety for staff while accessing the top of the salt tank.

# **Capital Improvement Program MRF - Aeration Influent Channel Mixing**

**Description:** Installation of an air mixing system in the roughing filter effluent (RFE) channel and the return activated sludge (RAS) channel.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

**Project:** 2021100023 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: The RFE and RAS channels develop a scum buildup that creates an offensive odor and allows for the buildup of fly eggs and larvae. The channels have dead zones that produce septic conditions and solids buildup. This buildup of scum and septic conditions has a negative effect on plant processes by decreasing aerobic conditions in the RAS, increasing unwanted filament and sulfur producing bacteria. This increases air demand in the aeration basin which increases operational costs. Staff currently has to wash down the channels on a regular basis to remove the buildup. This labor intensive routine produces minimal results and the buildup returns within hours. The installation of air mixers will eliminate the buildup, remove the cause of unfavorable process conditions and minimize operational costs. The addition of air mixers will also improve the odor control program at Meadowlark.

**Operations Impact:** The addition of the air mixing system will improve Meadowlark's aeration process, increase operation efficiency, and improve odor control.

### **Project Spending Plan**

## **Capital Improvement Program MRF - AT&T Phone Line Relocation**

**Description:** Relocate the AT&T phone line into the Meadowlark Reclamation Facility.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

**Project:** 2021100024 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** SDG&E relocated their power line into the Meadowlark Reclamation Facility (MRF) from their power poles to an underground conduit. AT&T's phone line is on the same power poles and needs to be placed underground as well. SDG&E provided a conduit for AT&T up to the transformer at MRF. AT&T needs to add additional conduit from the transformer to the power pole. Once this conduit has been installed, AT&T can remove their line from the pole and connect to the existing line that goes underground. All power poles can then be removed from MRF's lower road. This project pays for the portion that is owned by Vallecitos.

**Operations Impact:** The AT&T phone line into the plant will be more reliable during severe weather conditions.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

# **Capital Improvement Program Mahr - Salt Tank Ladder Climbing System**

**Description:** Replace ladder climbing system on the salt tank at Mahr Reservoir.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

Project: 2021100025 Funding Source: 100% Fund 250 - Reclaimed

**Comments:** The existing ladder climbing system on Mahr's salt tank does not meet the current code for climbing and fall protection. The tank access port is at the top of the tank and access to this port is done periodically to observe salt level distribution and during salt deliveries. The new ladder climbing system will have the proper climbing devices and will include a railing at the top of the tank to provide a more secure and safe system as the port is being accessed.

**Operations Impact:** Improved safety for staff while accessing the top of the salt tank.

# Capital Improvement Program Richland Tank I: Asphalt Repair and Sealcoat

**Description:** Repair the damaged asphalt and apply sealcoat at the Richland Tank I site.

Project Manager: Kevin Anctil Department: Construction

**Project:** 2021100026 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** Repair damaged areas and sealcoat the asphalt at the Richland Tank I site. The asphalt has cracks, root damage and potholes. The asphalt patches will be completed and then the area will be sealcoated to extend the life of the asphalt.

**Operations Impact:** No impact to operations.

<sup>(1)</sup> The District issued Refunding Revenue Bonds on July 1, 2015, to prepay a portion of the previously outstanding COPS Series 2005A. The bonds have a 5% interest rate over the 20-year term.

405

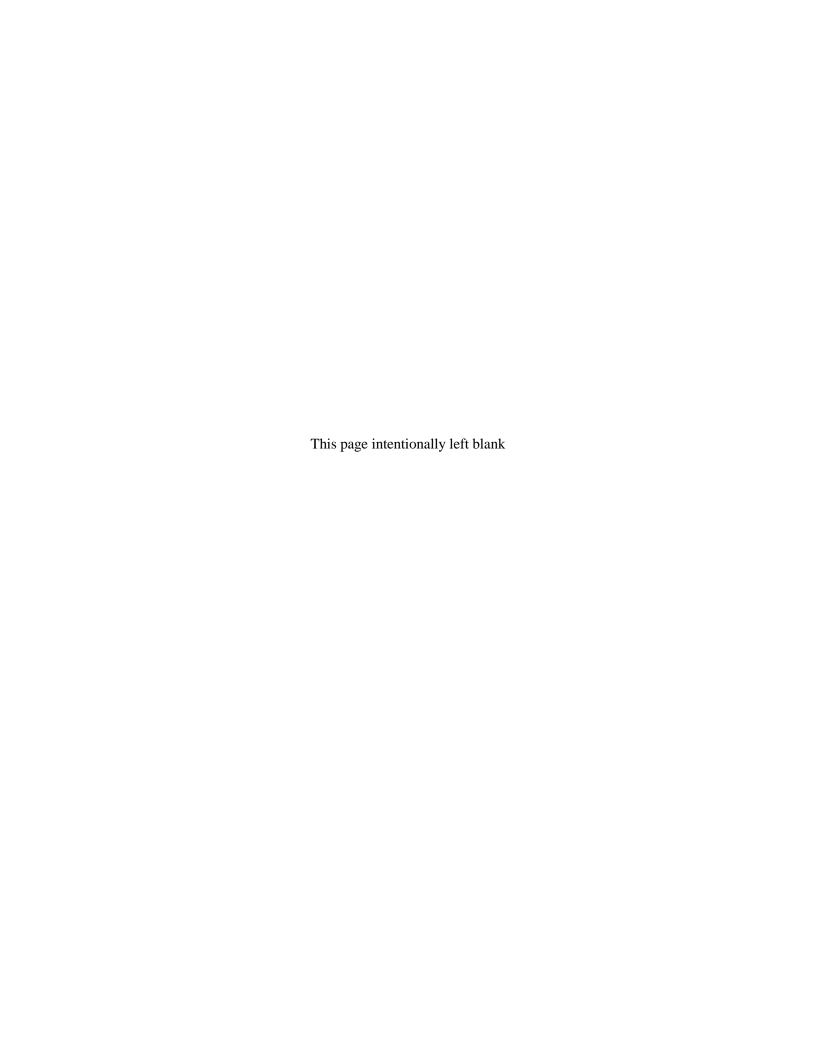

Days of Operating Expenses in Unrestricted Cash and Investments

<sup>(2)</sup> The 20/21 principal payment on the refunding bonds is due to bondholders on July 1, 2020. The District is obligated to transfer the payment before June 30, 2020, to a restricted account maintained by the Trustee, and, therefore, was deducted from the projected July 1, 2020 balance presented in the Reserve Budget.

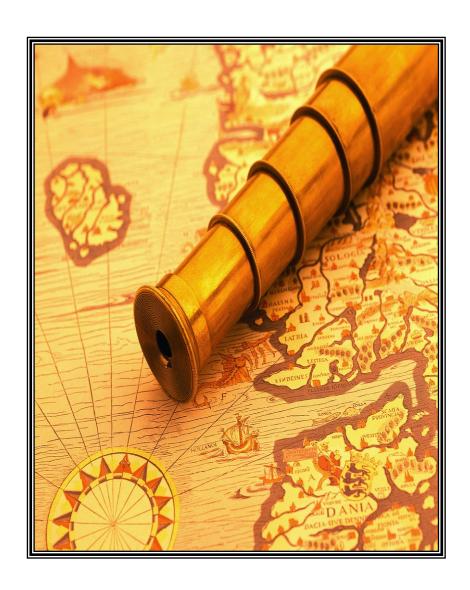

<sup>(3)</sup> The District and Union Bank of California executed an \$8 million 20-Year tax-exempt private placement with variable rate interest tied to the LIBOR. The District has the option of changing the LIBOR term. The current term is six months. The current rate is 1.072%. The proceeds partially restored a deficit balance in the restricted wastewater capacity fund from cash funding construction of the Encina Wastewater Authority Phase V expansion.

<sup>(4)</sup> The District issued bonds on December 21, 2012, to fund the increased capacity portions of San Marcos Interceptor and Linda Vista Sewer projects. The bonds have a 1.98% interest rate over the 10-year term.

<sup>(5)</sup> Per the 2015 Refunding Revenue Bonds official statement, the District is required to maintain a debt service coverage ratio of 1.15. Debt service coverage ratios are presented above inclusive and exclusive of capital facilities fees to demonstrate the District's ability to cover debt service above the required minimum. Capital facility fees are included in the official statement's definition of "Net Revenues".

#### Significant Assumptions

**Operating Transfers** - the result of operating activity transferred from the disbursements fund during the year. Operating transfers from FY 2025 through 2029 will increase by 2%.

**Rates** - Combined water and sewer rates for the average single family resident are estimated to increase by 3.5% each year the first 2 years with estimated increases of 3.5% to 4.0% January 1, 2023 and beyond.

**Operating Expense Assumptions** - Over the next five years, cost of wholesale water commodity will increase by 26% and wholesale fixed charges will increase 24%. Power, fuel, and chemical costs will increase by 4.5% per year, while most other operating costs will increase by 2% from year-to-year on average. The District will add 100 to 120 water accounts in 2020/21, and 100 to 120 in 2021/22 and every year thereafter. The District will add 100 to 120 sewer accounts in 2020/21 and approximately 100 to 120 in 2021/22 and each year thereafter.

Capital Facility Fees – The District will collect capacity charges for 200 water EDUs in fiscal year 2020/21 and between 225 and 300 EDUs in each fiscal year, 2021/22 through 2024/25. The District will collect capacity charges for 250 sewer EDUs in 2020/21 and between 250 and 425 sewer EDUs from 2021/22 through 2024/25. The rate per EDU will increase by the ENR each year.

Property Tax - revenue from the 1% allocation will increase by 2.15% each year.

Investment Earnings - assumed at 1.9%.

Capital Outlay scheduled after Fiscal Year 2025 will be expended evenly over six years.

# Vallecitos Water District Replacement Reserve Limits - Water System For the 2020-21 Budget year

# AGENDA FOR A MEETING OF THE FINANCE/INVESTMENT COMMITTEE OF THE VALLECITOS WATER DISTRICT MONDAY, DECEMBER 21, 2020 AT 4:00 P.M. VIA TELECONFERENCE

# NOTICE TO THE PUBLIC

Due to the evolving situation with the COVID-19 Novel Coronavirus and Executive Order N-35-20, so long as state or local public health officials have imposed or recommended social distancing measures Vallecitos Water District will hold future meetings via teleconferencing and allow members of the public to observe and address the meeting telephonically or otherwise electronically. During this period of time, Vallecitos Water District will not be making any physical location available for members of the public to observe the meeting and offer public comment. The public is encouraged to watch and participate in the meeting from the safety of their homes. The meeting can be viewed on the agenda page located on the main page of the District's website. Public comments or questions can be submitted to the following email address: <a href="mailto:PublicComment@vwd.org">PublicComment@vwd.org</a>. All written comments that are received 90 minutes before the meeting will be provided to the Board, and a record of the receipt of comment will be noted during the meeting.

CALL TO ORDER - DIRECTOR SANNELLA

### ITEM(S) FOR DISCUSSION

- BUDGET OVERVIEW
- 2. BUDGET FY20-21
- 3. MATERIALS & SERVICES 2021 COVID

### OTHER BUSINESS

### PUBLIC COMMENT

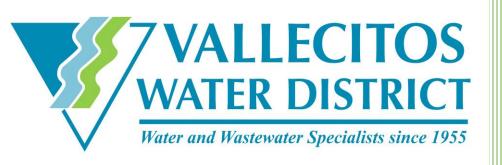

Persons wishing to address a matter not on the Agenda may be heard at this time; however, no action will be taken until the matter is placed on a future agenda in accordance with Board policy. Public comments are limited to three minutes. A Request to Speak form is required to be submitted to the Executive Secretary prior to the start of the meeting, if possible. Public comment should start by stating name, address and topic. The Board is not permitted during this time to enter into a dialogue with the speaker.

If you have any disability which would require accommodation in order to enable you to participate in this meeting, please call the Executive Secretary at 760.744.0460 ext. 264 at least 48 hours prior to the meeting.

# **AFFIDAVIT OF POSTING**

| I, Diane Posvar, Executive Secretary of the Vallecitos Water District, hereby certify that I |
|--|
| caused the posting of this Agenda in the outside display case at the District office, 201    |
| Vallecitos de Oro, San Marcos, California by 5:00 p.m., Thursday, December 17, 2020.         |

Diane Posvar

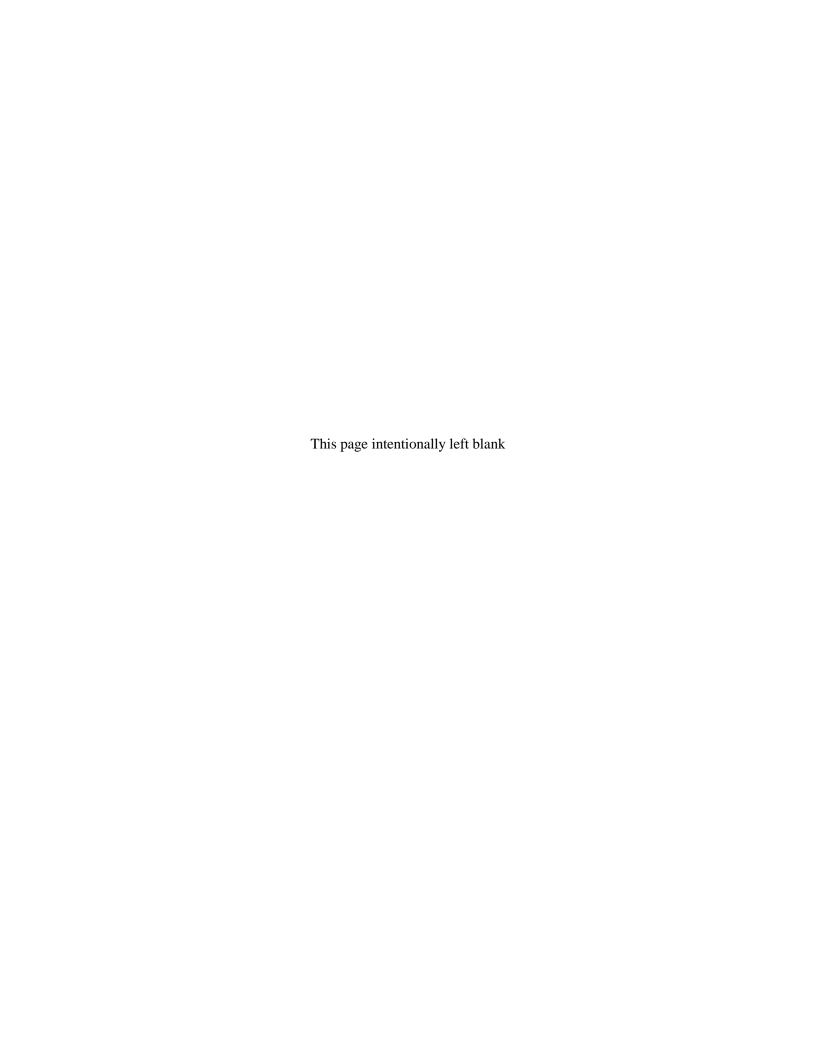

# Fiscal Year 2020-2021

# **BUDGET**

Vallecitos Water District
San Marcos, California

# **Our Mission**

# Water and wastewater specialists providing exceptional and sustainable services.

This mission of exceptional and sustainable services is reflected in this budget and in the attitudes and commitment of the Vallecitos Water District staff and Board Members.

Clockwise: Hal Martin, Betty Evans (center), Craig Elitharp, Mike Sannella and James Hernandez

Board of Directors

Date: June 3, 2020

To: Honorable Board of Directors

Regarding: Fiscal Year 2020/21 Budget

Enclosed is the recommended **Budget** for Fiscal Year 2020/21 (FY 20/21). The FY 20/21 budget totals \$90.6 million compared to \$98.1 million in FY 19/20. The FY 20/21 Budget is comprised of \$56.0 million of operational expenses (a 4.3% decrease from the \$58.6 million in 2019/20 operating budget), \$25.2 million for capital items and projects (\$26.1 million in 2019/20), debt service of \$5.4 million (\$5.4 million in 2019/20) and CalPERS Unfunded Accrued Liability (UAL) funding of \$4.0 million (\$8.1 in 2019/20). This budget includes a ten-year plan for capital items and projects of \$144.9 million (\$140.2 million in 2019/20). Inclusive of the ten-year capital plan the budget totals \$211.2 million compared to \$212.9 million in 2019/20.

The operational decrease of \$2.6 million primarily is attributable to a \$2.3 million decrease in water purchases due to decreased demand as a result of COVID impacts. The District estimates a 35% reduction in commercial demand as a result of businesses being closed offset by a 5% increase in residential demand due to customers being home and using more water in FY 20/21. The remaining \$0.3 million is mainly from decreased costs budgeted as a result of operational efficiencies at Meadowlark Plant, Meadowlark Lift Station, and Mahr Reservoir. In addition, \$6.3 million from operations is being transferred to reserves for capital replacement.

The revenue estimates included in this budget reflect rate increases for Water, Sewer and Ready-to-Serve which will be considered after completion of a cost of service study to be performed prior to consideration in December. Estimated rate increases included in this budget are between 3.5% and 4% over the five-year forecast. The rates are to recover the costs of service and meet strategic and financial objectives of the budget.

#### Long-range Financial Planning

As with recent budgets, this budget includes a ten-year projection of operating costs and capital needs in order to plan for a sound future in water supply and reliability. Fiscal sustainably is a necessary factor in the equation for future reliability and is a guiding influence in everything the District does.

All District employees are responsible to consider costs involved with activities and try to work as efficiently and effectively as possible. Consideration of controlling costs translates into the future financial viability of the District. Some of these considerations include: rate affordability; maintaining reserves, assess adequacy to cover debt obligations now and in the future; funding CalPERS UAL; and a credit worthy cash position. We plan to meet our capital needs and maintain a strong financial position without incurring any new debt in FY 2020/21.

#### FINANCIAL HIGHLIGHTS

The following narratives are financial highlights and comparisons of this budget, FY 2020/21, and last budget, FY 2019/20.

Board of Directors June 3, 2020 Page Two

# Water Operations (pages 3-14)

Water purchases are projected to total 13,445 acre-feet with sales of 12,400 acre-feet for 2020/21. The water operating budget decreased by \$1.6 million from last year's budget, or 3.6%.

## Wastewater Operations (pages 15-24)

Wastewater operating costs decreased \$0.9 million, or 6.6%, over last year's budget, mainly due to operational efficiencies at the Meadowlark plant and the District's portion of Encina's pre-funding of their UAL being moved from operating expenses to being funded from reserves. Reclaimed water costs are recovered by contractual sales to the Carlsbad Municipal Water District and Olivenhain Municipal Water District.

### Personnel (pages 25-31)

Fiscal year 2020/21 includes no new positions. The Assistant General Manager position is budgeted as vacant again this year. Salaries and benefits for 2020/21 decreased from the last budget year by \$321 thousand or 2.0% mainly as a result of a \$280 thousand decrease in the cost of Public Employment Retirement due to the District paying down the Unfunded Accrued Liability. Management will continue to scrutinize the need for all positions and only fill positions if absolutely necessary.

### Capital Budget (pages 33-103)

Capital projects are summarized on the Comprehensive Project List found on page 34. Details of each project, including timing of phases and spending, are presented on pages 36 through 101, followed by requests for easements, vehicles and equipment of \$881 thousand. Of the ten-year \$144.9 million capital budget, \$67.1 million are new requests and \$31.2 million are for future projects included for planning purposes. The remainder is from projects carried over from the prior year resulting in a capital budget increase of \$4.8 million. The amount of capital funding for FY 2020/21 is \$24.3 million.

### Reserve Budget and Projection (pages 104-111)

The Reserve Budget includes revenues and transfers from various sources and summarizes appropriations and expected cash outflows for CalPERS UAL funding, debt service, and capital projects. Page 105 displays the 2020/21 reserve budget for consideration. Pages 106 through 110 display detailed reserve projections for four subsequent years followed by a summary projection for the five years thereafter.

As a final note, our projections are based on trends, anticipated large one-time expenditures, economic factors within our industry, and global factors influencing our operations. Obviously, a good amount of forethought and monitoring at both the Board and staff levels has been required to produce such a realistic and useable financial guide.

Respectfully submitted,

Glenn Pruim, General Manager

To: Honorable Board of Directors

Regarding: CalPERS Unfunded Accrued Liability Funding Policy

It is Vallecitos Water District's commitment to excellence which drives staff to identify opportunities to remain efficient, fiscally responsible, and innovative. Managing the CalPERS pension liability is one of the District's most significant financial challenges and has been identified as one of the organization's key strategic initiatives to address. In Fiscal Year 2020 Vallecitos established a policy to pay down the pension liability over a maximum of three years with half of the amount paid in Fiscal Year 2020. On November 20, 2019, in accordance with policy, the District paid \$8.1 million of the CalPERS Unfunded Accrued Liability. Based on the most recent actuarial valuation report, dated June 30, 2018, the District's pension liability was approximately \$19.8 million. After the \$8.1 million payment the revised June 30, 2020 Total Unfunded Liability per CalPERS was \$11.3 million.

At the board meeting on May 20, 2020 staff obtained clear policy direction on how to manage the pension liability over the next couple years. Staff has been instructed to pay \$4.0 million of the pension liability in Fiscal Year 2021 with the remaining amount to be paid in Fiscal Year 2022 at the discretion of the board. Based on guidance and concerns received from the Board of Directors, Vallecitos intends to continue to address the pension liability by doing the following:

- 1) Pay the \$11.3 million pension liability over the next two years at the discretion of the Board with \$4.0 being paid in Fiscal Year 2021. For the five-year plan included in the Fiscal Year 2021 Recommended Budget it is assumed the \$11.3 million won't materially change during that time frame and it assumes a constant 7.0% interest rate being charged.
- 2) Revise the policy brief annually with updated amounts when new actuarial reports are released and incorporate them into Budgets for future fiscal years.
- 3) Maintain flexibility and control with this funding strategy, not locking into any formal arrangements with CalPERS.
- 4) Avoid over-paying, or becoming super-funded, by reassessing the final year's payment as necessary.
- 5) Report back to the Finance Committee and Board of Directors on pension funding status on a regular basis.

Below approximates the fiscal impact of this funding policy in conjunction with the minimum required payments Vallecitos would have to make regardless of the funding policy. This has been incorporated into the Recommended Budget for Fiscal Year 2021.

|  | Two Years to |              |               |  |

### BUDGET FOR THE YEAR ENDING JUNE 30, 2021

### **BUDGETARY CONSIDERATIONS**

#### Mission Statement

Water and wastewater specialists providing exceptional and sustainable services.

The budget reflects the mission statement

## **Budgetary Approach**

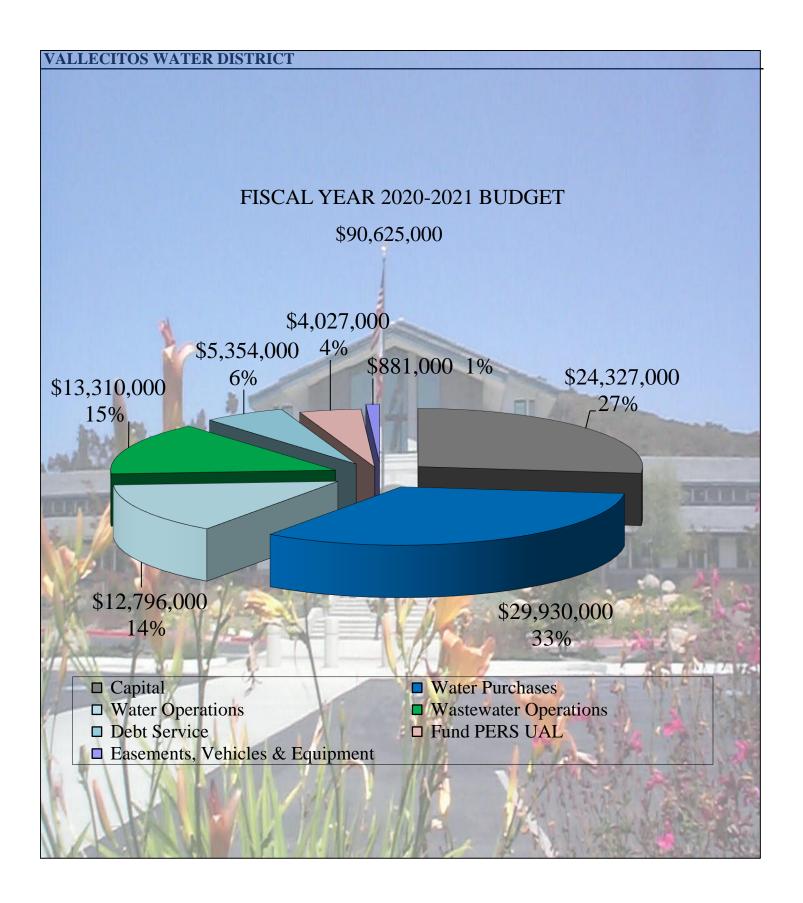

Governmental agencies, such as cities and counties, usually approach their budgets from the "revenue end." Since their revenues are somewhat predictable and restricted, their budgetary considerations are based on setting a level of service (expense total) that can be attained with those available funds.

A special district, however, must make a more thorough analysis. Normally, the expenses can be determined with a high degree of accuracy, and it's the revenues that must be set to cover those expenses. To complicate matters, factors such as weather variability and customer usage habits can have a profound effect on the overall revenue projection.

# Operations vs. Capital Budget

The budget is designed to ensure various revenues and fees are used as intended. The Operations Budget, which covers the ongoing cost of running the District, is paid by the rate payers of the District through charges for water and sewer service. The Capital Facilities Budget is covered primarily by fees on new development and existing customers with increased demands.

Operating revenue in excess of operating expense is earmarked for transfer to the Replacement Reserve Fund for the future replacement of assets. This ensures the current users of our system are paying their fair share for the maintenance of existing facilities as they depreciate.

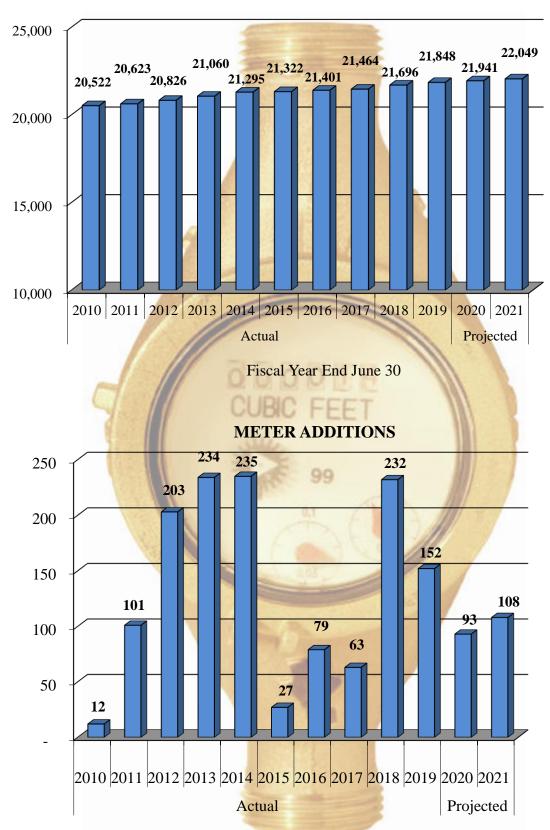

# 2020-21 OPERATING BUDGET

# WATER

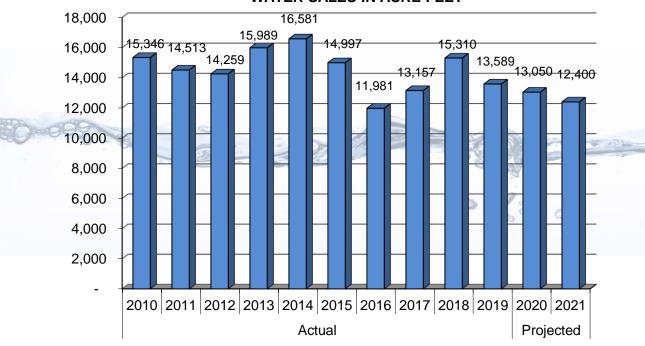

Double Peak Tank

# **METERS IN SERVICE**

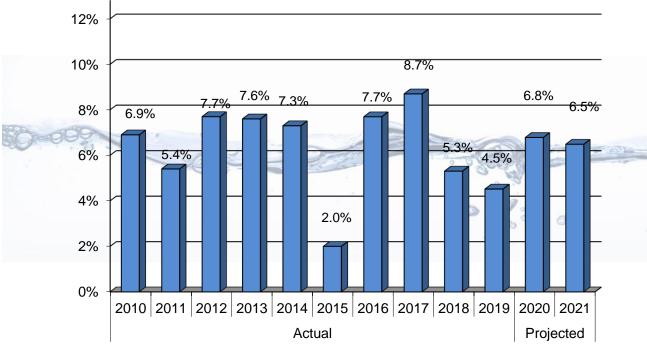

Fiscal Year End June 30

### **WATER SALES IN ACRE FEET**

Year End June 30

Year End June 30

Unbilled Water includes use acquired with one-day permits, tie-ins, operational use, fire hydrant damage and use, meter malfunctions, leaks.and timing differences

# BUDGET FOR THE YEAR ENDING JUNE 30, 2021

### FUNCTION DEFINITIONS - WATER OPERATIONS

#### **REVENUES**

<u>Water Sales</u>: Monthly charges to cover the wholesale cost of water, with a minimal markup targeted to cover some operating costs and provide funds for capital improvements and replacement.

<u>Ready To Serve</u>: Monthly charge to cover fixed costs, regardless of water sales. Examples include maintenance of reservoirs and transmission lines, meter reading and administrative costs such as insurance.

<u>Pumping Charges</u>: Charges to customers at high elevations, to cover the power costs required to deliver water.

<u>Interest and Other</u>: Interest revenue, late charges, backflow fees, engineering fees and other miscellaneous revenues.

### **OPERATING EXPENSES**

<u>Water Purchases:</u> Vallecitos purchases its water from two sources: The San Diego County Water Authority (SDCWA) and the Olivenhain Municipal Water District. Desalinated water is included in the water purchased from SDCWA.

<u>Pumping</u>: To move water to various elevations, and to provide adequate pressure and storage to higher service connections. Includes maintenance of ten pump stations, readings, and power costs.

<u>Water Quality</u>: To monitor incoming water in accordance with federal and state regulations. Includes collecting samples and reporting results, and maintenance of monitoring equipment.

<u>Water Treatment</u>: To treat water in tanks, handle chemicals, and use and maintain injection equipment for pipelines.

<u>Tanks and Reservoirs</u>: Maintenance of 17 steel tanks and 2 reservoirs. Includes corrosion control, security, and water level monitoring.

<u>Transmission and Distribution</u>: Maintenance of pipeline system within 45 square miles, consisting of 329 miles of pipes. Includes 26 pressure reducing stations, 3 (internal) flow control facilities, all air releases/blow-offs, fire hydrants (buried portion), cross-tie valves with other districts, and valve exercising.

Services: Maintenance of all service lines located from main lines to meters.

### BUDGET FOR THE YEAR ENDING JUNE 30, 2021

# FUNCTION DEFINITIONS - WATER OPERATIONS (Continued)

<u>Meters:</u> Reading approximately 22,000 meters monthly for billing purposes as well as maintenance of all customer meters.

<u>Backflow Prevention</u>: Ensures compliance with Title 17, requiring backflow devices for specific connections to protect quality of water in our system.

<u>Customer Accounts</u>: Costs related to opening and closing accounts, response to customer concerns, billing costs (statements, mailing), and uncollectible accounts.

<u>Equipment and Vehicles</u>: Maintenance of District equipment. Includes all construction equipment, water, sewer and administrative vehicles, plus miscellaneous tools and equipment.

<u>Buildings</u> and <u>Grounds</u>: Maintenance of administrative and operations buildings, warehouse, and shops. Also includes power costs, alarmed security system, landscape service, janitorial, and pest control.

<u>Engineering</u>: All costs of engineering, capital facilities and inspection services. Includes review and monitoring of development to ensure compliance with standard design practices, impact on existing system and environment, and orderly planning to provide adequate water and sewer service as demand dictates.

<u>Safety and Regulatory Affairs</u>: Program to control unnecessary risks, hazardous conditions, and unsafe practices, and minimize physical losses, personnel injuries, and district liability, and to provide for regulatory compliance in environmental, public health and other mandated areas.

<u>Information Technology</u>: Centralization of the District's technology to maintain hardware, software, servers, networks, and interfaces.

# General and Administrative

#### Cost of Labor:

- *Salaries* include administrative and conservation personnel salaries and all vacation, sick leave, and holiday time for administrative and water personnel.
- *Group Insurance* is health, vision, and dental costs for all administrative and water personnel.
- Workers' Compensation Insurance costs for all administrative and water personnel.
- Public Employees Retirement System (PERS) participation costs for all administrative and water personnel.
- Social Security costs for all administrative and water personnel.

#### BUDGET FOR THE YEAR ENDING JUNE 30, 2021

#### FUNCTION DEFINITIONS - WATER OPERATIONS (Continued)

#### General and Administrative (continued)

• Other Taxes/Benefits includes unemployment and other miscellaneous employee taxes and benefits such as annual luncheon, and awards for all personnel.

*District Insurance* premium costs protect District assets, such as buildings and vehicles, and provide liability coverage for potential claims.

Outside Services are provided by consultants and temporary help.

Legal costs are incurred for general legal counsel (presence at board meetings, contracts, employment issues, etc.)

Auditing is conducted by a certified public accounting firm to provide an opinion on the annual financial report.

Banking Services are provided to maintain the District's general checking account plus trust and custody services.

Office Supplies are purchased for necessary administration of the District including office equipment costing less than the capitalization threshold.

*Postage* not related to public relations or customer billing includes notifications, such as shutdowns and public hearing notification mailings.

Office Equipment Repair covers maintenance contracts on computer system, billing equipment, copiers, telephone system, and other repairs as needed.

*Telephone* costs are for service at administration and water operations, long distance, data lines, and cellular phone service for field and key personnel.

*Travel* costs are for administrative and water personnel.

*Meetings and Seminars* for administrative and water personnel provide District representation and professional development.

*Dues and Subscriptions* are for memberships and periodicals to various organizations, such as American Water Works Association (AWWA).

Public Awareness/Conservation is the "image and information" arm of the District, utilizing publications, special events, the speakers' bureau, and the VWD School Program to present Vallecitos as the "Water and Wastewater Specialists" and promote effective water conservation programs.

#### BUDGET FOR THE YEAR ENDING JUNE 30, 2021

#### FUNCTION DEFINITIONS - WATER OPERATIONS (Continued)

#### General and Administrative (continued)

Regulatory Fees are incurred for renewal fees for personnel certifications such as water distribution and treatment, notary, and professional memberships, state regulatory agencies, and other compliance matters.

*Election and Annexations* facilitation costs are assessed by the County.

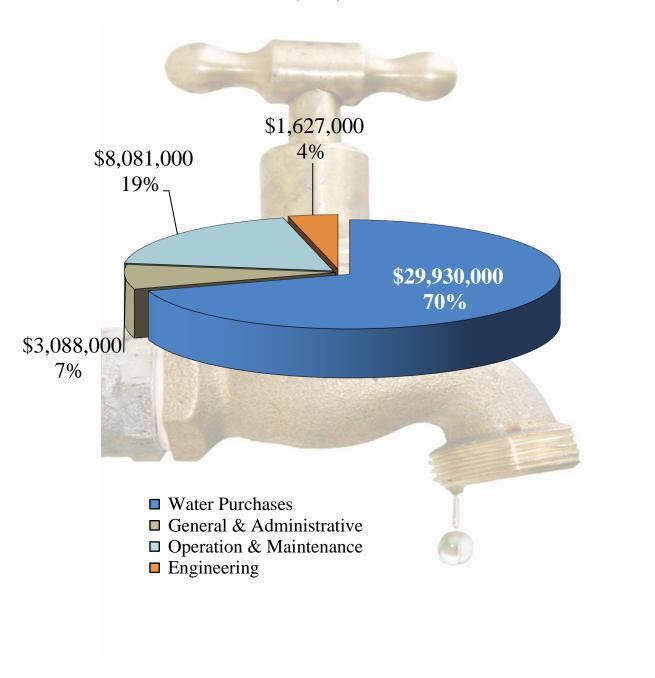

*Director Fees* are paid for attendance of board meetings, professional conferences, and other District-sanctioned organizations.

*Director Expenses* include all costs incurred by Directors, such as travel reimbursement and conference fees.

Other/Mandated Reimbursements include miscellaneous expenses that do not specifically apply to any of the above-referenced categories less mandated cost reimbursements due from the State.

Administrative Credit Transfer is a collection or recovery of overhead costs that are applied to all construction work orders.

2020-21 WATER OPERATING EXPENSE BUDGET \$42,726,000

# 2020-21 OPERATING BUDGET WASTEWATER

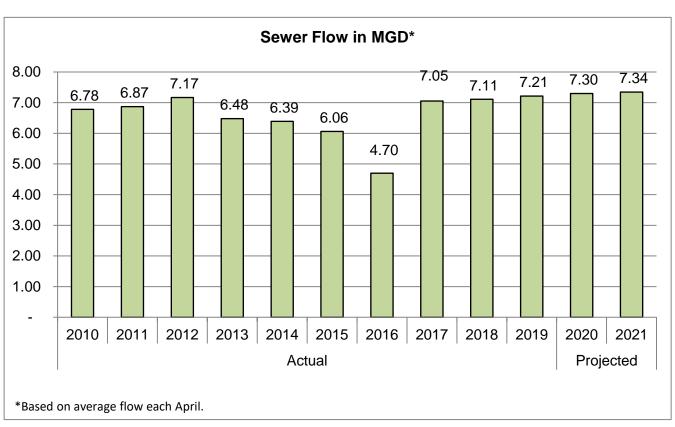

Chlorine Contact Tank at Meadowlark Wastewater Reclamation Facility

#### BUDGET FOR THE YEAR ENDING JUNE 30, 2021

#### FUNCTION DEFINITIONS - WASTEWATER OPERATIONS

#### **REVENUES**

<u>Sewer Service</u>: Monthly charges to cover the cost to collect, treat and dispose of wastewater plus maintain the various wastewater facilities.

<u>Reclaimed Water Sales</u>: Revenue generated from contractual sale of reclaimed water to the Carlsbad Municipal Water District and the Olivenhain Municipal Water District on a cost recovery basis.

Other: Interest revenue, late charges, engineering fees and other miscellaneous revenues.

#### OPERATING EXPENSES

<u>Collection and Conveyance</u>: Maintaining flow in 249 miles of District sewer lines. Includes blockage removal, television inspection, and maintenance of pipeline system and manholes.

<u>Lift Stations</u>: Cost of lifting sewage flows at the Montiel Lift Station, Lake San Marcos Lift Station and Questhaven Lift Station. Includes maintenance and power costs of the pumping systems.

<u>Source Control</u>: Costs to ensure compliance with federal, state, and local regulations as administered through the Encina Wastewater Authority.

<u>Encina Disposal</u>: Cost reimbursement to the Encina Wastewater Authority for processing wastewater and returning clean water to the environment.

<u>Meadowlark Plant</u>: All costs attributed to treating wastewater and for production and sale of reclaimed water to City of Carlsbad, and OMWD including operation and maintenance of the plant, No. 1 Lift Station, and Mahr Reservoir.

Customer Accounts: Responds to customers, associated billing costs, and uncollectible accounts.

<u>Equipment and Vehicles</u>: Maintenance of sewer vehicles and equipment and transfer of a portion of administrative and water operations vehicle costs attributable to sewer.

Buildings and Grounds: A transfer of costs attributable to sewer.

Engineering: All attributable sewer engineering, capital facilities and inspection costs.

#### BUDGET FOR THE YEAR ENDING JUNE 30, 2021

### FUNCTION DEFINITIONS - WASTEWATER OPERATIONS (Continued)

<u>Safety and Compliance</u>: A transfer of safety and regulatory affairs costs attributable to sewer operations.

<u>Information Technology</u>: Centralization of the District's technology to maintain hardware, software, servers, networks, and interfaces.

#### General and Administrative

#### Cost of Labor:

- Salaries include all vacation, sick leave, and holiday time for sewer personnel.
- *Group Insurance* is health, vision, and dental costs for all sewer personnel.
- Workers' Compensation Insurance covers all sewer personnel.
- Public Employees Retirement System (PERS) participation costs for all sewer personnel.
- Social Security cost for all sewer personnel.
- Other Taxes include unemployment and other miscellaneous employee taxes for sewer personnel.

*Travel* costs for sewer personnel.

*Meetings and Seminars* fees for sewer personnel are to provide District representation and professional development.

Dues and Subscriptions are periodical costs for sewer-related activities.

Other includes miscellaneous expenses that do not specifically apply to any of the above-referenced categories.

Administrative Credit Transfer is the collection or recovery of overhead costs that apply to all construction work orders.

<sup>\*</sup> There is also a labor overhead charge to work orders to cover benefit costs which are a part the credit in the General and Administration sections of Water and Wastewater operations.

#### 2020-21 PERSONNEL BUDGET

### POSITIONS/PERSONNEL:

Management will scrutinize the need for all positions and only fill positions if absolutely necessary. The Assistant General Manager position is budgeted as vacant again this year. The fiscal year 2020-21 budget includes no new positions.

#### 2020-21 PUBLIC AWARENESS AND CONSERVATION PROGRAM BUDGET

#### **REBATE PROGRAMS \***

Prj 2021100038

Pri 2021100039

W/O 117447

To encourage the purchase of qualified low flow devices, appliances, artificial turf or rebates to customers who remove their existing truf grass and install a low-water landscape (i.e., Cash for Grass program.)

1,000

\$

#### OUTREACH & ADVERTISING

W/O 117448

For purchase of items and services used to assist customers in becoming better informed about water related issues. Includes but not limited to: purchase of videos, books, displays and promotional items; advertising; cost to participate in community events; employee education; and to provide tours of District facilities. Includes cost to produce and mail newsletters, consumer confidence report, brochures, bill inserts, special hearing notifications, and others as needed.

52,900

#### **VIDEO PRODUCTION**

Prj 2021100040

W/O 123555

Cost to hire outside production company to produce videos highlighting the District or for internal staff to purchase supplies and services to create videos. Videos to be shown during tours of the District, speaking engagements, on the VWD website and/or on social media.

8,500

#### **EDUCATION**

Prj 2021100041

W/O 117451

For continued development and purchase of materials designed to promote and implement K-12 education programs. This includes the Splash Science Mobile Lab visits to area elementary schools and payment for bus transportation to Jack's Pond Park and Heritage Park to listen to educational water history information by District staff. Also includes bus transportation for school tours of the District. Includes materials and costs to participate in annual Water Awareness Campaign (4th grade calendar/poster contest), such as the purchase of calendars, entry forms, prizes for entrants and poster contest winners. Also includes participation in Palomar College GEAR UP program.

6,800

#### **COOPERATIVE PROGRAMS\***

Pri 2021100042

W/O 117452

For participation in cost-sharing programs such as residential surveys; large property audits, which are outsourced due to extensive staff time that would be required; customer service surveys; and supplies such as dye tablets, showerheads and moisture probes.

4,000

### **WATERWISE LANDSCAPE**

Prj 2021100043

W/O 117453

To promote low water use landscape and irrigation practices. Includes the cost for sponsoring, maintaining and upgrading water-wise demonstration gardens\*\*, landscape irrigation/plant selection workshops, signage and promotion of demonstration gardens, waterwise plant promotions, and purchase of waterwise landscape brochures and publication reprints.

\*\* Demonstration gardens include: Sustainable Demonstration Garden at VWD Administration building, Heritage Park native plant garden and Jack's Pond Park native plant garden.

6,000

#### MEMBERSHIPS & EQUIPMENT Pri 2021100044

W/O 117454

To maintain memberships in related organizations and committees and for the purchases of new or replacement equipment.

2,600

#### COMMERCIAL/INDUSTRIAL

Prj 2021100045

W/O 117455

To assist large commercial and public agency customers by providing workshops, written materials, monetary incentives, and using outside consultants.

1,200

#### TOTAL PUBLIC AWARENESS/CONSERVATION PROGRAM BUDGET

83,000

<sup>\*</sup> Uncertainty in the funding from the Metropolitan Water District may adversely impact the availablity of programs.

# **Capital Improvement Program Land Outfall Gravity Sewer Sec D Phs 1**

**Description:** Approximately 7,900 feet of existing 30 to 39-inch sewer pipe within Gravity Section D of the Land Outfall is currently under capacity and will need to be upsized to new 36-inch to 48-inch PVC pipes.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 90001 **Funding Source:** 20% Fund 220 - Sewer Capacity 80% Fund 210 - Sewer Replacement

Comments: The Land Outfall comprises approximately 34,000 feet of sewer pipe (total) installed in 1985, connecting Lift Station No. 1 to the Encina Water pollution Control Facility. A portion of the Land Outfall, referred to as Gravity Section D, is made up of approximately 15,000 feet of sewer pipe ranging in size from 30 to 39-inch from east of Interstate 5 to the end of Siphon C, located near Palomar Oaks Way and Camino Vida Roble. Approximately 7,900 feet of Gravity Section D is currently over capacity and needs to be upsized to new 36-inch to 48-inch PVC pipelines. The District will work with other interested agencies (City of Carlsbad, Buena Sanitation District & City of Vista) when possible in pursuit of cost-sharing alternatives. After project completion, the District estimates \$3,515,000 will be received in reimbursements.

The existing Land Outfall capacity ownership percentages for the three agencies are:

Carlsbad 23.98% Vista 17.99% VWD 58.03%

**Operations Impact:** Reduce the risk of sewer spills. Increase capacity. Routine maintenance.

#### **Project Spending Plan**

## Capital Improvement Program San Marcos Interceptor Phase 2

**Description:** The project consists of constructing approximately 3400 feet of 42-inch sewer interceptor replacing an existing 21-inch sewer line. The existing line is prone to groundwater inflow and infiltration (I&I) and at risk for failure and sanitary sewer overflow. The sewer interceptor runs along San Marcos Creek from north of the State Route 78 past McMahr Road. The project includes open cut and a tunnel section.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 71004 **Funding Source:** 29% Fund 210 – Sewer Replacement 71% Fund 220 – Sewer Capacity

Comments: This project is the last phase of a project identified in the 2002 Master Plan. The reduction of inflow and infiltration (I&I) will help extend the life of the sewer system downstream of the San Marcos interceptor and reduce unnecessary treatment of groundwater at the Encina Water Pollution Control Facility and VWD's Meadowlark Water Reclamation Facility. The new line will also reduce the likelihood of sanitary sewer overflows into the San Marcos Creek. Previous phases have already been completed. Design began FY 13/14 for the last phase, Phase 2, between Via Vera Cruz and Pacific Street in order to be consistent with the future improvements within the Creek District. The City of San Marcos will reimburse VWD for approximately \$70,000 in design costs for Phase 2. The construction cost reimbursement will be finalized after actual bid prices are received for the project. This project is identified in the 2018 Master Plan as Project SP-11.

**Operations Impact:** The sewer capacity replacement project will serve to prevent future sanitary sewer overflows (SSOs).

# **Capital Improvement Program Montiel Lift Station and Forcemain Replacement**

**Description:** The Montiel Lift Station and the discharge forcemain have surpassed the end of their design life and require replacement. In addition, the lift station is undersized to handle peak wet weather build out flows for the area.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2020100002 **Funding Source:** 51% Fund 210 – Sewer Replacement 49% Fund 220 – Sewer Capacity

Comments: The Montiel Lift Station is a small facility just north of State Route-78 and east of Nordahl Road. This lift station was constructed in 1985 and was originally designed to serve as a temporary purpose. The lift station collects and conveys wastewater flows from a 200-acre area east of Nordahl Road near the District's eastern service area boundary. The lift station's discharge consists of 1,830-feet of 6-inch diameter ductile iron pipe (DIP) forcemain which has surpassed the end of its design life. The District has prepared a planning document and determined that a gravity outfall solution, in partnership with the City of Escondido will not be realized. This project is identified in the 2018 Master Plan as Project LS-1.

The existing pumps in the lift station are not adequately sized to convey ultimate peak wet weather flows and will be replaced with 300-gpm pumps (approx). Access to the lift station will be improved and located above ground with dry pit centrifugal pumps to reduce occurrences of confined space entry by staff. The existing forcemain discharge connection to the gravity manhole in Nordahl Road will be replaced. An additional 2,350 feet of forcemain piping may be included downstream of this location to reduce the quantity/cost of future CIP replacements of the existing gravity sewer in the Nordahl Shopping Center. Additional replacements of existing 10" diameter DIP influent gravity sewer segments upstream of the lift station may be replaced.

**Operations Impact:** Routine monitoring and maintenance.

#### **Project Spending Plan**

## Capital Improvement Program Encina Wastewater Authority FY 19/20

**Description:** The District is a member agency of the Encina Wastewater Authority (EWA). The District shares in the cost of planned asset replacements and capital acquisitions.

Project Manager: Wes Owen Department: General Manager

**Project:** 2020100001 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** These miscellaneous Encina Wastewater Authority capital projects are budgeted each year based on the District's 22.4% ownership share.

Operations Impact: No significant increase in costs or changes in efficiencies are anticipated from this project

## **Project Spending Plan**

# **Capital Improvement Program Chlorine Contact Tank Expansion**

**Description:** Expand the existing Chlorine Contact Tank (CCT) at the Meadowlark Water Reclamation Facility (MRF) from 5 million gallons a day (MGD) to 6.5 MGD. Evaluate updating CCT process to utilize Ultraviolet Sterilization.

Project Manager: Ryan Morgan Department: Engineering

Project: 2016100002 Funding Source: 100% Fund 250 - Reclaimed

Work Order: 167177

**Comments:** The existing CCT were part of the original expansion of MRF in the 1980's. During the latest expansion of MRF which started in 2005, the CCTs were re-rated to handle the expanded flow but were not updated. Currently the CCTs remain one of the bottlenecks in the process at MRF.

Chlorine contact tanks (CCTs) at Meadowlark Water Reclamation Facility (MRF) can process up to 5 million gallons per day (MGD) of reclaimed water; all of the other treatment components at MRF has the ability to process up to 6.5 MGD. This was identified in the draft Nutrient Removal Study, which indicated that MRF has the ability to increase the daily treatment capacity to 6.5 MGD. The District as a member of the North San Diego County Water Reuse Coalition secured a grant of \$90,000 under Prop 84, awarded by the State Water Resources Control Board (SWRCB). The District is seeking 25% Grant funding for the project budget total. Reimbursement for project costs will also be acquired from current recycled water customers (City of Carlsbad and Olivenhain Municipal Water District) through the Recycled Water Rates. Construction of the CCT expansion will be contingent on acquiring these grant funds and reimbursement agreements. The net result will be 'no cost' to the District.

**Operations Impact:** Normal maintenance.

**Project Spending Plan**

## Capital Improvement Program Meadowlark Tank No. 3

**Description:** This existing Meadowlark Tank site is comprised of one 1.25 million gallon (MG) tank and a second 2.75 MG tank. As part of this project, a new 2.5 MG Meadowlark Tank No. 3 will be built.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 71084 Funding Source: 100% Fund 120 – Water Capacity

Work Order: 71084

**Comments:** The site was master planned during the 76-1 Assessment District to accommodate three tanks total. A final 3.5 million gallon (MG) tank is not expected to be needed until 2036, when it will replace the 1.25 MG Tank No. 1. At build-out, the Meadowlark Tanks will provide a total storage capacity of 8.75 MG. This project is identified in the 2018 Master Plan as Project R-1.

**Operations Impact:** The project will increase capacity at the site by 2.5 million gallons with the construction of the new tank. Daily monitoring of water levels and conditions at the tank site is expected.

# Capital Improvement Program City of San Marcos Creek District Phase 1

**Description:** This amount is set-aside to cover services rendered in conjunction with various City of San Marcos projects involving District infrastructure per the District/City of San Marcos Cost Sharing Agreement dated March 31, 2009. This includes District staff time involved in inspection and project management, as well as reimbursements to the City for District infrastructure relocations and adjustments.

Project Manager: Rob Scholl Department: Engineering

Project: 2017100224 Funding Source: See Below

#### **Comments:**

# Capital Improvement Program Tres-Amigos Water Line Replacement Phase 1

**Description:** Replace approximately 7,800 feet of the Tres-Amigos thin-wall steel water line. The aging 6-inch to 8-inch steel pipe will be replaced with new PVC pipe.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2020100003 Funding Source: 100% Fund 110 – Water Replacement

Comments: The Tres-Amigos water line consists of of approximately 19,000 feet of pipelines ranging from 6-inch to 12-inch diameter. The water pipelines located in the northern limits of VWD boundary were installed in the 1950s and 1960s, extending from the North Twin Oaks Tank No. 2 in Pleasant Heights Drive to north of Carrio Drive. The original Tres Amigos Line Extension Project occurred in 1958 which installed 6-inch and 8-inch diameter tar wrapped 12-14-gauge steel pipelines. This material is considered steam pipeline and is not adequate for use in pressurized water distribution systems. The Project will design the replacement of existing 6-inch and 8-inch diameter steel water mains with 8-inch (minimum) diameter C-900 PVC water pipeline.

Due to the frequency of pipeline ruptures, this project will replace approximately 7,800-feet of the Tres Amigos water pipelines beginning at the tee junction in Green Hills Way, traveling northbound in VWD easements and in Ormsby Way. The pipeline corridor veers east in an existing VWD easement from Ormsby Way and travels northbound in alignment with Fairview Drive and crosses Gopher Canyon Road, continuing northbound in Fairview Drive. North of the Carrio Drive/ Fairview Drive intersection, the pipeline travels northeast in VWD easements through private properties to a deadend at VWD's northern boundary (end of Project). A key Project objective includes the relocation of the existing pipelines out of private backyards and into more accessible areas.

**Operations Impact:** Reduced risk of water line breakage. Annual and routine pipeline maintenance is expected with the completion of this project.

#### **Project Spending Plan**

# **Capital Improvement Program Elser Lane Water Line Improvements**

**Description:** Project will ensure reliability and improve water quality for residents along Elser Lane by transferring water services to a new 8-inch distribution main instead of the existing 18-inch transmission main.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2018100002 Funding Source: 100% Fund 110 – Water Replacement

Comments: An existing 18-inch diameter cement mortar lined and coated steel transmission main between Rees Road and Rock Springs Road was installed in 1956. The pipeline corridor travels between homes, underneath structures, and in private backyards where access is significantly limited. Should a pipeline rupture occur or if the pipeline requires repair, there is a greater chance of damage to property owners. This line serves approximately 21 residential meters. This project will bring this area into District standards by extending new 8-inch distribution water lines on Elser Lane to service residents with new water meters. New connections to existing water lines in McLees Court will create a loop in the water supply system, ensuring reliability of service and improving water quality. This project also offsets future costs to relocate the water main under the Rees Road Water Line Project.

**Operations Impact:** Improve reliability and water quality. Routine maintenance.

## **Project Spending Plan**

# Capital Improvement Program MRF: Conversion to Sodium Hypochlorite

**Description:** Replace the use of chlorine gas at the Meadowlark Water Reclamation Facility with bulk storage of sodium hypochlorite (bleach)and peform a structural retrofit to meet the current State seismic standards for buildings.

Project Manager: Ryan Morgan Department: Engineering

Project: 2017100002 Funding Source: 100% Fund 250 - Reclaimed

Comments: The Meadowlark Water Reclamation Facility (MRF) currently uses 100% chlorine gas as a disinfectant in order to meet State regulations for reclaimed water. Chlorine gas is an acute hazard that presents a danger to District staff and the increasing number of residents in the immediate area. Use of this gas requires the District to maintain several expensive State and Federal safety programs, equipment, and a Hazardous Materials response team; requiring a considerable amount of staff time. The conversion to bulk storage of sodium hypochlorite removes the acute hazard of chlorine gas and replaces it with a bleach solution (12.5%) that removes the District's requirement to maintain several of the extensive safety programs for that site. Use of the bleach will not create an acute hazard in the event of a leak. The project will proceed with an agreement from the Recycled Water customers (City of Carlsbad and OMWD) to reimburse the District through Recycled Water rates.

During the Process Hazard Analysis of 2019, ventilation openings in the Chlorine Building were identified as having seismic deficiencies. These deficiencies need to be seismically retrofitted to the current building code.

**Operations Impact:** Removal of an acute hazard. Reduction in regulatory requirements and staff time at the Meadowlark Reclamation Facility. Economic benefit of no longer needing to import chlorine gas or maintain a HazMat team. Routine maintenance.

## **Capital Improvement Program MRF - Biological Selector Improvements**

**Description:** Construct modifications to the existing aeration basins to reduce sludge bulking, improve treatment, and reduce operation and maintenance costs at the Meadowlark Water Reclamation Facility (MRF).

Project Manager: Ryan Morgan Department: Engineering

Project: 2019100002 Funding Source: 100% Fund 250 - Reclaimed

**Comments:** Using biological modeling, this project will make improvements to the aeration basin operation and capacity. With the addition of a anaerobic selector to the existing aeration basin, overall treatment will improve, lowering operational costs. In addition flexibility will be added to the process by allowing treatment to occur without running the roughing filters. Infrastructure modifications will be made to the aeration basin including changing to ceramic disc diffusers and adding geo-membrane baffling, a new compressed air mixing system, and process control probes.

The construction of the biological selector will only proceed with an agreement from the current recycled water customers (City of Carlsbad and Olivenhain Municipal Water District) to reimburse the District through the Recycled Water Rates.

**Operations Impact:** Reduce operation and maintenance costs.

# Capital Improvement Program Richland Invert Replacement

**Description:** This project calls for the replacement of the existing 100-foot wastewater siphon pipeline that travels under San Marcos Creek from the Diamond Environmental Services parking lot south of Mission Road to the 18-inch Richland Interceptor. The existing 8-inch and 10-inch pipelines will be replaced with either a new 15-inch siphon to be located at the existing pipelines' location.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2012100002 Funding Source: 100% Fund 210 – Sewer Replacement

Work Order: 123749

Comments: The existing 8-inch and 10-inch invert pipelines were installed over 27 years ago and were originally designed to be temporary. Because of their size restrictions, surcharging occurs in the upstream gravity pipelines during peak flows. In addition, recent inspections by the District's Collections crew have revealed damage to the existing pipe. This project will evaluate whether a new, larger capacity siphon underneath the San Marcos Creek or a gravity line in the City right-of-way is the most cost effective option. If the creek crossing is selected, staff anticipates environmental wetland permitting will be required. The 2018 Master Plan has identified this replacement as project SP-10.

**Operations Impact:** The project increases sewage handling capacity in the collections system and solves an existing sewer surcharge issue during daily peak and wet weather events. Annual, routine sewer pipeline maintenance is expected with the completion of this project.

**Project Spending Plan** 

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22  | FY 22/23    | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |

# Capital Improvement Program District-wide SCADA Upgrade Project

**Description:** Upgrade SCADA Network, Software and Hardware Components.

Project Manager: Robert Salazar Department: Operations and Maintenance

**Project:** 2020100004 Funding Source: 51% Fund 110 – Water Replacement

49% Fund 210 - Sewer Replacement

#### **Comments:**

The District's existing Supervisory Control and Data Acquisition (SCADA) system is outdated and obsolete. Replacement parts are difficult to obtain, extremely expensive and technical support is no longer available. The existing hardware is 1970's technology and no longer compatible with current software operating systems. The new hardware will include SCADA radios and PLC's (Programmable Logic Controllers) that are Ethernet capable, allowing for faster data transfer rates. This new hardware and software will also allow remote access, which allows staff to program and troubleshoot the SCADA network from one central location. This will decrease the downtime of the network and reduce travel time to remote sites, saving staff time and improving efficiency. Security of the SCADA network will be much improved with this upgrade and Operations will be working with IT staff to ensure the District's cyber-security needs are met.

**Operations Impact:** Routine maintenance.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |
|---------------|----------------------|-----------|----------|----------|----------|--------------------------|-------------|

## Capital Improvement Program Meadowlark Failsafe Rehabilitation

**Description:** This project will install manholes to provide access to the pressured system for cured in place pipeline rehabilitation, repair, and/or replacement alternatives.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2020100005 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** The Meadowlark Failsafe Sewer Outfall is composed of approximately 9900 feet of 16-inch ductile iron pipe (DIP) installed in 1980 from Aviara Parkway and Palomar Airport Road to Yarrow Road and Camino Vida Roble in Carlsbad. Recent repairs in the Buena Reach have determined that there is a significant need to improve the condition of this pipeline. This project will install manholes to provide access to the pressured system for cured in place pipeline rehabilitation, repair, and/or replacement alternatives.

Buena Sanitation District is responsible for 50% of any repairs or improvements in the Buena Reach and a letter agreement as a rider to the 1980 agreement will be required. After project completion, we expect to receive \$580,000 in reimbursements.

**Operations Impact:** Improve maintenance access. Identify structural, flow capacity deficiencies, and potential repairs. Reduce risk of sewer spills. Annual and routine pipeline maintenance.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |

| Jul 2019         | Jan 2020 | Aug 2020 | Jul 2020 | Oct 2020 | Feb 2021     | Aug 2021 | Aug 2021   |

# **Capital Improvement Program Sage Canyon Tank Refurbishment**

**Description:** Sage Canyon Tank requires interior refurbishment.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2020100006 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The existing interior lining of the 3.7 million gallon (MG) tank has deteriorated and requires full refurbishment. This project will remove the existing lining and coating and install a new lining and coating. Structural repairs to the ceiling rafters and equipment upgrades may also be necessary.

Operations Impact: Prevent further delamination of the existing lining. Routine maintenance

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |

## **Capital Improvement Program Steel Pipeline Condition Assessment**

**Description:** Leverage the District's Asset Management Program to perform condition assessment on targeted areas of the District's highest priority steel water line. Results will be evaluated to minimize future replacement projects and reduce chances of emergency repairs.

Project Manager: Susan Bowman Department: Engineering

**Project:** 2020100007 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The District will plan and implement a phased, multi-year condition assessment program. This program will use pipeline condition assessment technology in conjunction with the District's Asset Management Program, to target specific areas in the District's steel (CML&C) water line system for evaluation. The program will determine whether pipelines are in need of repair, rehabilitation, or full replacement. Coordination with Operations staff will minimize disruption to customers and provide invaluable insight to developing work plans. Work plans will establish where pipe tools will be inserted into the water line to measure pipeline wall thickness. Results will be evaluated to maximize the beneficial use of the District's existing infrastructure.

**Operations Impact:** Reduce risk of water line breakage by identifying potential repairs. Extend the useful life of the existing water lines. Annual and routine pipeline maintenance.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

# **Capital Improvement Program Asset Management Replacement Schedule**

**Description:** Create a comprehensive Asset Management Plan integrating the District's own computerized maintenance management system (CMMS), prioritized Asset/Infrastructure replacement schedule, including condition assessment, for the District Facilities. This item is part of the VWD Strategic Plan – Strategic Focus Area 1.2.

Project Manager: Susan Bowman Department: Engineering

**Project:** 2014100004 **Funding Source:** 50% Fund 110 – Water Replacement 50% Fund 210 – Sewer Replacement

Comments: The District's infrastructure is aging and proper planning requires an understanding of when, where, and how much replacing that infrastructure will cost. Proper preventative maintenance helps ensure the District obtains the maximum beneficial life out of its infrastructure. The District has already taken steps towards this by implementing a computerized maintenance management system (CMMS) known as Maximo to implement and track preventative, corrective, and emergency maintenance/repairs on all assets/ infrastructure. This project will take the CMMS, Geographical Information System (GIS) and condition information to develop an Asset Management Plan that will provide a prioritized, risk-based replacement schedule with cost estimates over the expected life of all assets/infrastructure. This, plus a Business Risk Exposure analysis and performance of condition assessments on infrastructure, will help the the Asset Management Plan identify future renewal and replacement projects.

**Operations Impact:** An Asset Management Plan with schedule will help to prevent costly line breaks, prioritize resource allocation, improve efficiency and reduce overall asset lifecycle costs.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

# **Capital Improvement Program MRF - Tertiary Structural Rehab and Repairs**

**Description:** The Tertiary Treatment Area at the Meadowlark Water Reclamation Facility (MRF) requires rehabilitation and repairs to the influent chamber, an associated air line, a joint seal and pipe opening to Filter Basin No. 3, the existing sluice gate located in the Chlorine Contact Tank - Effluent and Backwash Pump Station, and various related areas.

Project Manager: Ryan Morgan Department: Engineering

Project: 2018100011 Funding Source: 100% Fund 250 - Reclaimed

**Comments:** The Meadowlark Water Reclamation Facility's (MRF) Tertiary Treatment Area needs various repairs due to the corrosive nature of the treatment process. The existing high solids epoxy coating the tertiary influent chamber is failing. A stainless steel mixing air line inside the chamber has also developed leaks. Using bypass methods, the chamber's protective lining will need to be repaired and the airline replaced. Associated with the tertiary influent chamber is a concrete mixer platform that has deteriorated and will need to be replaced with new steel beams and platform.

Downstream from the influent chamber are six tertiary filter basins. The joint seal in Filter Basin No. 3 is failing, resulting in corrosion to a pipe opening at the bottom of the filter and corrosion to the associated pipe located outside of the basin in the Filter Pipe Gallery. This isolated area will need to be repaired and recoated. All work will need to be scheduled during low production of recycled water.

The existing sluice gate in the Effluent and Backwash Pump Station, which is used to isolate tertiary flows in the Chlorine Contact Tank, is non-functional. The sluice gate needs to be replaced to restore operational use of this equipment.

To get more competitive pricing, and due to the coordinated scheduling of the related work, these individual repairs will be grouped together under one construction contract.

**Operations Impact:** Restore operational functionality. Maintains the integrity of tertiary treatment area and operational processes. Normal maintenance.

### **Project Spending Plan**

## Capital Improvement Program North Twin Oaks Tank No. 1 Refurbishment

**Description:** North Twin Oaks Tank No. 1 requires interior and exterior refurbishment.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2019100003 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** North Twin Oaks Tank No. 1 was built in 1961 off El Paso Alto and was last inspected in 2010 and 2015. The existing interior lining and exterior coating of this 0.6 million gallon (MG) tank has deteriorated and requires full refurbishment. This project will remove the existing interior lining and exterior coating and install new linings and coatings. Due to the age of the tank and level of deterioration, repairs to the ceiling rafters or replacement may be necessary as well as upgrades to the safety and cathodic protection equipment. The existing antenna will also be relocated off the tank and remote communication equipment upgraded.

**Operations Impact:** Prevent further deterioration of the existing linings and coatings. Improved safety. Routine Maintenance.

### **Project Spending Plan**

## Capital Improvement Program Land Outfall West Condition Assessment

**Description:** The western segment of the sewer Land Outfall is in need of a condition assessment to evaluate for future cleaning, rehabilitation, and/or repair projects

Project Manager: Susan Bowman Department: Engineering

**Project:** 2020100009 Funding Source: 100% Fund 210 – Sewer Replacement

Work Order: 212368

Comments: The existing sewer Land Outfall pipeline was installed in 1986 and connects the District's Lift Station No.1 to the Encina Water Pollution Control Facility (EWPCF). The 34,000 foot long pipeline has both gravity and pressurized segments. While some eastern segments, between Melrose Drive and Acacia Drive were replaced in 2006, there has been no evaluation of the western portion of the Land Outfall from El Camino Real to the EWPCF. This project will evaluate through closed-circuit television (CCTV) inspection the condition of approximately 16,700 feet of sewer pipeline ranging in size from 30-inch to 54-inch.

As joint partners in the Land Outfall, this project will require coordination with the City of Carlsbad and the Buena Sanitation District (Vista). After project completion, we expect to receive \$256,000 in reimbursements.

**Operations Impact:** Reduce the risk of sewer spills. Routine maintenance.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

# **Capital Improvement Program Ductile Iron Pipe Condition Assessment**

**Description:** Leverage the District's Asset Management Program to perform condition assessment on targeted areas of the ductile iron pipe system that have been experiencing breaks in recent years. Results will be evaluated to minimize future replacement projects and reduce chances of emergency repairs.

Project Manager: Susan Bowman Department: Engineering

**Project:** 2020100010 Funding Source: 100% Fund 110 – Water Replacement

Comments: The District will plan and implement a phased, multi-year condition assessment program. This program will use pipeline condition assessment technology in conjunction with the District's Asset Management Program, to target specific areas in the ductile iron pipe (DIP water line system for evaluation. The program will determine whether pipelines are in need of repair, rehabilitation, or full replacement. Coordination with Operations staff will minimize disruption to customers and provide invaluable insight to developing implementation plans. Implementation plans will establish where pipe tools will be inserted into the water line to measure pipeline wall thickness. Results will be evaluated to maximize the beneficial use of the District's existing infrastructure.

**Operations Impact:** Reduce risk of water line breakage by identifying potential repairs. Extend the useful life of the existing water lines, reduce operational costs of annual and routine pipeline maintenance.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

# Capital Improvement Program Palos Vista Pump Station - Motor Starters Upgrade

**Description:** Upgrade four auto-transformer motor starters to solid state soft starters.

Project Manager: Robert Salazar Department: Mechanical/Electrical

**Project:** 2020100011 Funding Source: 100% Fund 110 – Water Replacement

#### **Comments:**

Replace four auto-transformer motor starters. Replacement is required due to wear from a long service life of over 25 years and a lack of support for replacement parts. New solid state soft starters will improve reliability and operating efficiency of electric motors.

**Operations Impact:** Routine maintenance.

## **Project Spending Plan**

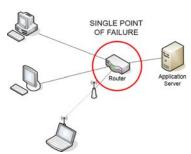

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

## **Capital Improvement Program** Redundancy for Admin. Wireless Radio Network

**Description:** The District provides network connectivity between facilities via wireless radio infrastructure. Additional redundancy of radio network is necessary in order to provide continuity of data communications between sites in the event of a radio failure.

Project Manager: Matias Labarrere **Department:** Information Technology

**Project:** 2020100022 **Funding Source:** 51% Fund 110 – Water Replacement 49% Fund 210 - Sewer Replacement

Comments: Upgrades to District Wireless Radio network. Additional radio stations are needed to support redundancy of

data communications between the following district locations: Admin/Operations Buildings, Meadowlark Reclamation Facility, Twin Oaks Reservoir. Current Administrative Wireless radio architecture has a single point of failure - one fault or malfunction will cause the entire communications system to stop operating in the event of a single radio outage.

**Operations Impact:** Additional redundancy must be added to the Administrative radio network in order to provide continuity of data communications in the event of radio failures.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

|                  | Begin    | End | Begin  | End | Begin        | End |            |
| Jul 2019         |          |     |        |     |              |     | Jun 2022   |

# Capital Improvement Program Las Posas Water Line Replacement

**Description:** Replace an existing 10-inch water line crossing underneath an existing double reinforced box culvert on Las Posas Road.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2018100004 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** A 10-inch ductile iron (DIP) water main underneath a double reinforced box culvert (RBC) on Las Posas Road, between Linda Vista Drive and Stone Drive is aging and in need of replacement. It has experienced a break in recent years and control valves associated with this water main are non-operational. The replacement will involve installing a new parallel PVC water main in a steel casing and reconnecting to the existing asbestos-cement pipe (ACP) located on either side of the double RBC.

**Operations Impact:** Prevent future breaks. Routine maintenance.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22  | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|----------|-----------|----------|----------|--------------------------|-----------|
| Planning      | \$5,000              | \$2,000  |           |          |          |                          | \$7,000   |
| Design        |                      |          | \$30,000  |          |          |                          | \$30,000  |
| Construction  |                      |          | \$270,000 |          |          |                          | \$270,000 |
| Total         | \$5,000              | \$2,000  | \$300,000 | \$0      | \$0      | \$0                      | \$307,000 |

# **Capital Improvement Program Rock Springs Valve Replacement**

**Description:** Replace the existing 12-inch and 14-inch valve cluster at Rock Springs Road and Bennet Avenue and associated piping. The valves are non-operational and the nearby pipeline has failed in recent years

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2016100007 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** This project will allow proper control of the water system and reduce the number of customers affected during a pipeline failure.

**Operations Impact:** The valves are non-operational. Operations and maintenance repair costs will be minimized at this location.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

| Jul 2015         | Jun 2018 | Dec 2020 | Jul 2021 | Dec 2021 | Mar 2022     | Aug 2022 | Mar 2022   |

## Capital Improvement Program Via Vera Cruz Tank Hill Stabilization

**Description:** A side slope adjacent to the Via Vera Cruz Tank requires slope stabilization treatment.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2016100014 Funding Source: 100% Fund 110 – Water Replacement

Work Order: 162901

**Comments:** A portion of the existing slope adjacent to the Via Vera Cruz Tank on District property is failing due to steep terrain and material composition. The foundation of a property line fence is being eroded and exposed and material washes down to the tank elevation. Routine clean-up of the area is done and falling rocks threaten to damage the tank. Phase 1 of the project installed a rigid barrier at the toe of slope along a portion of the perimeter to catch failing rocks. Phase 2 will apply a mesh or tensioned slope stabilization system to approximately 2200 square feet (SF) of steep slope to prevent further failures. Repairs to the property line fence will also be performed and landscaping repairs may be necessary.

**Operations Impact:** Reduced risk of damage to the tank from falling rocks. Eliminate clean-up of the area from debris. Maintain security of property with intact fence. Annual and routine monitoring of the slope.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24  | FY 24/25 &<br>Thereafter | Total     |

# **Capital Improvement Program Fire Services - Backflow Preventer Upgrades**

**Description:** Replace single-check backflow prevention systems with double-check systems on fire services.

Project Manager: Kevin Anctil

Department: Construction

**Project:** 2017100005 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The District is responsible for several fire service backflow preventers in the distribution system that were installed prior to new District standards being adopted. The single-check backflow preventers that were installed are no longer an acceptable device and some have failed due to corrosion from being installed in an underground vault. The Construction department will replace 5 systems each year with an approved double-check backflow prevention system and bring the services above ground.

**Operations Impact:** Enhanced backflow prevention. Routine maintenance.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

# Capital Improvement Program DHS- Upgrades for Critical Infrastructure Hardware

**Description:** The Department of Homeland Security (DHS) performed an audit of the District Industrial Control System (ICS) Information Technology Network on 11/27-28/2018. Audit As a result of the audit, several recommendations were provided to enhance system architecture on the Supervisory Control and Data Acquisition (SCADA) network. Initiatives contained within this CIP aim to strengthen the cybersecurity posture of the District's industrial control systems (ICS).

Project Manager: Matias Labarrere Department: Information Technology

Comments: As a core part of its mission to reduce risk to the Nation's critical infrastructure (CI), Department of Homeland Security (DHS) National Cyber Assessments and Technical Services (NCATS) subject matter experts provide cybersecurity assessments to CI asset owners and operators to strengthen the cybersecurity posture of their industrial control systems (ICS). NCATS on behalf of the National Cybersecurity and Communications Integration Center (NCCIC) provides voluntary assessments based on standards, guidelines, and best practices. The assessment methodology provides a structured framework that asset owners and operators can leverage to evaluate and validate the cybersecurity of their ICS networks. The information gained from these reviews provided the District with additional understanding and context necessary to build effective defense-in-depth processes for enhancing our cybersecurity posture. The DHS team worked directly with the information technology (IT), operations technology (OT), and management staff at the VWD facilities to determine the overall cybersecurity posture of its ICS. DHS recommends physical isolation of the control systems network from the business network.

Hardware upgrades contained within this CIP are broken down in the following manner:

Creation of an isolated system for SCADA/ICS - \$151,440 Backup/Disaster Recovery of isolated SCADA/ICS system - \$80,260 Remote Monitoring/Support - \$7,500

**Operations Impact:** Hardware upgrades contained within this CIP aim to strengthen the cybersecurity posture of the District's industrial control systems (ICS) per DHS recommendations.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|-----------|----------|----------|----------|--------------------------|-----------|
| Planning      |                      | \$44,000  |          |          |          |                          | \$44,000  |
| Design        |                      | \$44,000  |          |          |          |                          | \$44,000  |

## **Capital Improvement Program Technology Infrastructure Upgrades**

**Description:** Replacement or upgrades of District technology infrastructure. Includes servers, networking equipment (wired/wireless), security appliances, and supporting infrastructure management solutions.

Project Manager: Matias Labarrere Department: Information Technology

**Project:** 2020100023 **Funding Source:** 51% Fund 110 – Water Replacement 49% Fund 210 - Sewer Replacement

**Comments:** Secure and reliable technical infrastructure is mission critical to District operations and service to the public. Serious disruptions or costly unplanned emergency repairs can occur if end-of-life/end-of-support systems are not upgraded or replaced in a timely manner, resulting in reduced productivity and service levels.

**Operations Impact:** Replacement of end-of-life equipment is necessary to ensure continuity of business operations.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|-----------|----------|----------|----------|--------------------------|-----------|
| Planning      |                      |           |          |          |          |                          |           |
| Design        |                      |           |          |          |          |                          |           |
| Construction  | \$65,000             | \$155,000 |          |          |          |                          | \$220,000 |
| Total         | \$65,000             | \$155,000 | \$0      | \$0      | \$0      | \$0                      | \$220,000 |

|------------------|----------|-----|--------|-----|--------------|-----|------------|
|                  | Begin    | End | Begin  | End | Begin        | End |            |
| Jul 2019         |          |     |        |     |              |     | Jun 2022   |

## Capital Improvement Program Door Access Control System Expansion -MRF & Mahr

**Description:** Access control for a total of thirty-nine (39) doors between Meadowlark Reclamation, Mahr, and Administrative facilities.

Project Manager: Matias Labarrere Department: Information Technology

**Comments:** There is a need to convert keyed locks at Meadowlark Reclamation, Mahr, and Administrative buildings to keyless entry and add them to our existing BlueWave access control system. This upgrade will allow dual access to doors through the use of a fob or a security code and will eliminate the need for keys at Meadowlark, Mahr, and Administrative buildings. This initiative will allow for improved control over access to VWD facilities while minimizing reliance on the management of physical keys.

Upgrades contained within this CIP are broken down in the following manner:

Access Control upgrades for Administrative Building - \$30,000

Access Control upgrades for Meadowlark and Mahr Facilities - \$110,000

Re-Key of existing locks for Administrative Building - \$5,000

Re-Key of existing locks for Meadowlark and Mahr Facilities-\$5,000

**Operations Impact:** Increased security, time savings, and eliminate the cost of replacing keys

**Project Spending Plan** 

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

# Capital Improvement Program Upgrades to Surveillance Video Management System

**Description:** Upgrades to existing Video Recording systems are required to obtain additional coverage, fidelity, and performance of the District's centralized recording system.

Project Manager: Matias Labarrere Department: Information Technology

**Comments:** Upgrades to the District's video recording systems have been recommended by the manufacturer. Longrange IR illuminators and additional cameras are recommended to provide additional coverage for dimly lit facilities. Current limitations of installed hardware adversely affect the quality of video recording during the night.

**Operations Impact:** Increased security, resiliency, and performance of existing video recording system.

## **Project Spending Plan**

# **Capital Improvement Program MRF - Site Lighting Upgrade and Repairs**

**Description:** Replace three light poles and existing outdoor High Pressure Sodium (HPS), Low Pressure Sodium (LPS) and Metal Halide lighting fixtures with LED fixtures.

Project Manager: Robert Salazar Department: Mechanical/Electrical

Project: 2020100024 Funding Source: 100% Fund 250 - Reclaimed

#### Comments:

Replacing existing outdoor lighting fixtures with LED fixtures will provide improved security and safety lighting at night for District staff.

LED fixtures will be more energy efficient and reduce operating and maintenance costs. There are currently three lighting poles that require replacement due to corrosion and deterioration at the bases.

**Operations Impact:** Routine maintenance.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

| Jul 2019         |          |     |       |        |       | Jun 2021 | Jun 2021   |

# **Capital Improvement Program HVAC Communication Upgrade**

**Description:** Upgrade the District's HVAC control communication to an updated and user-friendly system. This will enable the District to control the HVAC system remotely, with non-proprietary restraints.

Project Manager: Dennis Bowman Department: Warehouse/Purchasing

**Project:** 2020100015 Funding Source: 51% Fund 110 – Water Replacement

49% Fund 210 - Sewer Replacement

**Comments:** The current Trane HVAC system is 22 years old. The system routinely fails and finding technicians trained to work on the outdated systems is expensive and cumbersome. Currently, we are unable to remote in and troubleshoot any issues; preventing us from making any modifications to the system.

**Operations Impact:** Facilities Maintenance and Information Technology meeting with contractors. Occasional HVAC service disruptions while the system is being upgraded.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

| Jul 2019         |          |     |        |     |              |     | Jun 2021   |

# **Capital Improvement Program Building B Laminate Floor Replacement**

**Description:** The flooring in B building is peeling up. To prevent trip hazards this project will thoroughly seal the concrete below and lay the new laminate.

Project Manager: Dennis Bowman Department: Warehouse/Purchasing

**Project:** 2017100009 Funding Source: 51% Fund 110 – Water Replacement

49% Fund 210 - Sewer Replacement

**Comments:** Remove old flooring, seal concrete, and install new flooring.

**Operations Impact:** None

## **Project Spending Plan**

# **Capital Improvement Program Update Restrooms to ADA Compliance**

**Description:** Remove and replace the current counters, sinks, mirrors, and paint. Fire system lights are a requirement to install in the restroom for compliance.

Project Manager: Dennis Bowman Department: Warehouse/Purchasing

**Project:** 2020100021 **Funding Source:** 51% Fund 110 – Water Replacement 49% Fund 210 - Sewer Replacement

**Comments:** The restrooms need new counters, sinks, mirrors, and paint. When quotes were solicited for these updates, we were informed certain locations were not ADA compliant. The two areas of concern are the Lobby and Engineering restrooms.

**Operations Impact:** Certain restrooms will be down while under construction.

## **Project Spending Plan**

## Capital Improvement Program District Wide Solar

**Description:** The District entered into a power purchase agreement in November, 2019 to develop new solar sites which will ultimately reduce future energy costs. An independent third party will build, maintain, and operate the solar installations at no cost to the District. The PPA generates a reduced electric rate for 25 years resulting in net savings to the District with no capital contributions.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2020100014 **Funding Source:** 51% Fund 110 – Water Replacement 49% Fund 210 - Sewer Replacement

**Comments:** The District entered into a power purchase agreement in November, 2019 to develop new solar sites which will ultimately reduce future energy costs at the following two locations:

- 1. Net Energy Metering at Lift Station No. 1
- 2. RES-BCT Project at Twin Oaks Reservoirs 1 & 2 Site

A Power Purchase Agreement (PPA) was established between an independent third party that will build, maintain and operate the solar installations at both sites over a period of 25 years. The PPA will provide a significantly reduced electric rate to select District meters over this term, resulting in a net savings to the District at no capital investment. The project is moving into construction, with both projects anticipated for completion in the winter of 2020.

**Operations Impact:** Savings in District's monthly payments to electrical utility over the lifetime of the PPA.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|----------|----------|----------|----------|--------------------------|-----------|

## **Capital Improvement Program Water Operations Control Room Upgrades**

**Description:** Replacement of the Water Operations SCADA console, floors and paint. New SCADA software and display screens will be used for enhanced distribution system control and security camera monitoring operations. This will comply with DHS recommendations and the District's VA.

Project Manager: Shawn Askine Department: Water Operations

**Project:** 2020100019 Funding Source: 100% Fund 110 – Water Replacement

Comments: VWD staff is working on a District-wide Supervisory Control and Data Acquisition (SCADA) upgrade that is compliant with the Department of Homeland Security (DHS) recommendations. The Water Operations control room console was constructed in 1997. This console was designed to hold the old style, square monitors and does not allow the use of the current wide screen technology monitors. The replacement console design will allow the use of wide screen monitors and have an option for an ergonomic sit/stand station. The new console will also allow for the additional screens needed to monitor security cameras throughout the distribution system, located in areas identified in the District's Vulnerability Assessment (VA). The control room floor is worn and will be replaced before installing the replacement console. The Water Operations control room and offices will also be painted at this time.

**Operations Impact:** Improved SCADA control systems and security monitoring. Routine maintenance.

#### **Project Spending Plan**

# Capital Improvement Program Encina Wastewater Authority Five Year Plan

**Description:** The District is a member agency of the Encina Wastewater Authority (EWA). The District shares in the cost of planned asset replacements and capital acquisitions.

Project Manager: Wes Owen Department: Finance

**Project:** 2021100001 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: These miscellaneous capital projects are budgeted each year

Operations Impact: No significant increase in costs or changes in efficiencies are anticipated from this project..

## **Project Spending Plan**

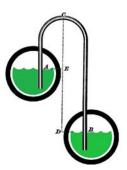

| Project Phase | Previous<br>Spending | FY 20/21    | FY 21/22    | FY 22/23    | FY 23/24    | FY 24/25 &<br>Thereafter | Total        |

## Capital Improvement Program Land Outfall Parallel Sewer Section A

**Description:** The existing 20 to 24-inch Siphon Section A, and 30-inch Gravity Section A of the Land Outfall are under capacity and will require a parallel 30-inch pipeline and a new 42-inch pipe to be installed.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2021100002 Funding Source: 100% Fund 220 – Sewer Capacity

Comments: The Land Outfall comprises approximately 34,000 feet of sewer pipe (total) installed in 1985, connecting Lift Station No. 1 to the Encina Water pollution Control Facility. The Siphon Section A comprises approximately 12,000-feet of 20 to 24-inch ductile iron pipe (DIP) and operates as a pressurized inverted siphon. The Siphon Section A corridor begins just west of Acacia Drive and ends just east of El Camino Real. Currently Siphon Section A is overcapacity during peak wet weather flow conditions. A 30-inch siphon pipeline, parallel to Siphon Section A, needs to be installed to provide additional capacity and to accommodate ultimate build out demands.

Approximately 1,500 feet of existing 30-inch vitrified clay pipe (VCP), referred to a Gravity Section A, was installed in 1985 as part of the 34,000 foot Land Outfall project, which connects Lift Station No. 1 to the Encina Water pollution Control Facility. Gravity Section A is currently under capacity for build out demands and will need to be replaced with new 42-inch PVC.

**Operations Impact:** Reduce the risk of sewer spills. Increase capacity. Routine maintenance.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23    | FY 23/24     | FY 24/25 &<br>Thereafter | Total        |
|---------------|----------------------|-----------|-----------|-------------|--------------|--------------------------|--------------|
| Planning      |                      | \$120,000 | \$200,000 |             |              |                          | \$320,000    |
| Design        |                      |           |           | \$1,000,000 |              |                          | \$1,000,000  |

## Capital Improvement Program 16-Inch Emergency Bypass Pipeline Rehabilitation

**Description:** Rehabilitate approximately 4550 feet of existing 16-inch reinforced plastic mortar sewer pipeline with a cured-in-place-pipe (CIPP) liner and replace necessary control valves and appurtenances to operate the line. Provide new access locations at incremental lengths along the alignment.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2021100003 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: The 16-inch Emergency Bypass pipeline was installed in 1969 and connects to the District's 24-inch Land Outfall pipeline in the City of Carlsbad. The pipeline extends from Melrose Drive near Poinsettia Lane and follows a natural canyon easterly to Rancho Santa Fe Road near Via Cancion. The pipeline is primarily composed of reinforced plastic mortar (RPM) pipe, commonly referred to as "Techite", with some section of ductile iron pipe (DIP). The pipeline, controlled by a series of valves, serves as an emergency bypass of sewer flows to and from the Meadowlark Water Reclamation Facility (MRF) and the Land Outfall pipeline to the Encina Water Pollution Control Facility (EWPCF) in Carlsbad. Due to age, material, and corrosive environment, the pipeline has suffered breaks in recent years and several of the control valves no longer function. this project will install access to install a cured-in-place-pipe (CIPP) liner and replace appurtenances as needed.

**Operations Impact:** Restore operation to broken valves and increase life of the bypass sewer line.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21    | FY 21/22  | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total       |

# Capital Improvement Program MRF Headworks - Upgrade/Replace Equipment

**Description:** Replace existing channel grinders, frames, augers and control panels.

Project Manager: Robert Salazar Department: Mechanical/Electrical

**Project:** 2021100004 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** Vallecitos staff consulted with Misco Water & JWC Environmental to evaluate the existing augers, grinders and flow conditions at the Meadowlark Reclamation Facility (MRF) Headworks. The companies provided their recommendations to update/upgrade existing equipment to satisfy current and future wastewater flow conditions at MRF. This project will replace the existing equipment per their recommendations in order to provide increased efficiency and reliability at the MRF Headworks.

**Operations Impact:** Routine maintenance.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

## Capital Improvement Program Coronado Hills Tank Exterior Refurbishment

**Description:** Coronado Hills Tank requires exterior refurbishment.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2021100005 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The existing exterior coating of the 2.6 million gallon (MG) tank has deteriorated and requires full refurbishment. As part of the refurbishment, some equipment upgrades may be necessary.

**Operations Impact:** Prevent further deterioration of the exterior coating and corrosion of the metal tank shell. Routine maintenance.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

## Capital Improvement Program MRF Direct Potable Reuse

**Description:** VWD would like to explore the feasibility of repurposing or expanding MRF Plant Capacity and providing potable reuse

Project Manager: Rob Scholl Department: Engineering

**Project:** 2021100006 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** The Meadowlark Water Reclamation Facility (MRF) currently provides approximately 4 MGD of recycled water to the Olivenhain Municipal Water District and the City of Carlsbad. VWD would like to explore the feasibility of repurposing some of this capacity, or expanding MRF, to create potable water for distribution to VWD's water customers. The evaluation is the first step in determining if this concept is technically and financially feasible.

**Operations Impact:** Potential to provide alternative water supply source

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22  | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

## **Capital Improvement Program** Rancheros Drive Sewer Replacement

**Description:** The project will include identifying alternative alignments, bypass pumping, and sewer replacement with District approved materials.

Project Manager: Ryan Morgan Department: Engineering

**Project:** 2021100007 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** The Rancheros Drive sewer includes approximately 700-feet of corroded ductile iron pipe originally installed in 1972. Severe corrosion has compromised the structural integrity of the pipe wall and collections is no longer able to safely clean and maintain the sewer.

**Operations Impact:** Collections will have the ability to clean and maintain the Rancheros Drive Sewer upon completion of the project.

## **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23  | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|----------|----------|-----------|----------|--------------------------|-----------|
| Planning      |                      | \$2,000  | \$5,000  |           |          |                          | \$7,000   |
| Design        |                      |          | \$23,000 |           |          |                          | \$23,000  |
| Construction  |                      |          |          | \$270,000 |          |                          | \$270,000 |
| Total         | \$0                  | \$2,000  | \$28,000 | \$270,000 | \$0      | \$0                      | \$300,000 |

| Mar 2020         | Jan 2021 | Dec 2021 | Jan 2022 | Jan 2022 | Sep 2022 | Dec 2022 | Jan 2023   |

# **Capital Improvement Program Coggan Pump Station - Generator**

**Description:** Install new permanent generator with automatic transfer switch.

Project Manager: Robert Salazar Department: Mechanical/Electrical

**Project:** 2021100008 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** Coggan Pump Station has no permanent generator for emergency power. To insure reliability to this facility, an Air Pollution Control District (APCD) / California Air Resources Board (CARB) compliant generator will need to be installed at the station. Improvements will also include an automatic transfer switch, enclosure, concrete pad, and conduit.

**Operations Impact:** Provide reliability to the pump station in the event of a power failure. Routine maintenance.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22  | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |
|---------------|----------------------|----------|-----------|----------|----------|--------------------------|-----------|
| Planning      |                      | \$10,000 |           |          |          |                          | \$10,000  |
| Design        |                      |          | \$25,000  |          |          |                          | \$25,000  |
| Construction  |                      |          | \$250,000 |          |          |                          | \$250,000 |
| Total         | \$0                  | \$10,000 | \$275,000 | \$0      | \$0      | \$0                      | \$285,000 |

FY 2020/21 Budget Request - \$285,000

| Jul 2020         | Jul 2020 | Jun 2021 | Jul 2021 | Jan 2022 | Mar 2022     | Jun 2022 | Jun 2022   |

### Capital Improvement Program MRF - Odor Scrubber #1 Replacement

**Description:** Replace existing Odor Scrubber #1.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

**Project:** 2021100009 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: Odor Scrubber #1 is over 10 years old and is showing signs of degradation. The components required to maintain reliable operation are in need of constant repair and maintenance. The odor scrubber is required to be in operation 24/7 in order to comply with the Air Pollution Control District's (APCD) permit. As the odor scrubber continues to age and degrade, compliance with the APCD regulations will be increasingly difficult to achieve. The odor scrubber reduces and/or eliminates odors from various plant processes that would otherwise be released to the atmosphere. The odor scrubber also reduces the corrosion effects of hydrogen sulfide gas and is a part of the District's efforts in maintaining good neighbor relations by abating offensive odors.

**Operations Impact:** A new odor scrubber will provide greater reliability for odor control and meet APCD permit requirements.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

# Capital Improvement Program Building A Roof Replacement

**Description:** The roof on building A has had several leaks. After a thorough inspection it was determined that the roof needs to be replaced.

Project Manager: Wes Owen Department: Warehouse/Purchasing

**Project:** 2021100010 Funding Source: 51% Fund 110 – Water Replacement

49% Fund 210 - Sewer Replacement

**Comments:** Re-roof building A salvaging existing tiles where possible.

**Operations Impact:** None

### **Project Spending Plan**

# Capital Improvement Program District-wide Valve Replacement Program

**Description:** Replace broken or leaking valves throughout the District.

Project Manager: Kevin Anctil

Department: Construction

**Project:** 2021100011 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The valve crew has discovered many broken valves requiring replacement. This project is to replace 25 to 30 valves in the next fiscal year.

**Operations Impact:** Improved ability to isolate water mains with less impact to customers. Routine maintenance.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21  | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total     |

### Capital Improvement Program MRF - Uninterruptible Power Supply Installation

**Description:** Installation of a Uninterruptible Power Supply for lab equipment in the MRF Control building.

Project Manager: Robert Salazar Department: Mechanical/Electrical

**Project:** 2021100012 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** Install an Uninterruptible Power Supply (UPS) to feed backup power to electrical Panel 'B' which feeds power to the Meadowlark Reclamation Facility (MRF) lab area and equipment. During monthly generator exercises and unplanned power outages, lab instruments and equipment with sensitive electronic components can be affected by power surges. In addition, two receptacle circuits feeding power to the SCADA computers in the Control room will be re-fed from Panel 'A' to Panel 'B' to be protected on the UPS.

**Operations Impact:** Routine maintenance.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

| Jul 2020         | Jul 2020 |     |       |        |       |         | Jun 2021   |

## Capital Improvement Program City of San Marcos Joint Projects Relocate/Adjust

**Description:** This amount is set-aside to cover services rendered in conjunction with various City of San Marcos projects involving District infrastructure per the District/City of San Marcos Cost Sharing Agreement dated March 31, 2009. This includes District staff time involved in inspection and project management, as well as reimbursements to the City for District infrastructure relocations and adjustments.

Project Manager: Rob Scholl Department: Engineering

Project: 2021100013 Funding Source: See Below

#### Comments:

Miscellaneous relocations/adjustments resulting from City of San Marcos joint projects.

These projects are in conjunction with the City's Capital Improvement Plan. Currently one project is proposed:

San Marcos Boulevard and Discovery Street

**Operations Impact:** Normal maintenance for infrastructure.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

# Capital Improvement Program South Lake - Ultrasonic Algae Control System

**Description:** Installation of an ultrasonic algae control system at South Lake Reservoir.

Project Manager: Shawn Askine Department: Water Operations

**Project:** 2021100014 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The MPC-Buoy by LG Sonic is an ultrasonic algae control system that will be used to help reduce the amount of algae growth in the water stored in South Lake Reservoir. The ultrasonic device is a floating solar-powered system that combines real-time water quality monitoring and ultrasonic sound waves to control algae effectively. Using ultrasound to control the growth of algae in South Lake Reservoir means less chemicals will need to be used to maintain water quality.

**Operations Impact:** Reduced chemical usage and improved water quality.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

| Jul 2020         |          |     |        |     |              |     | Jun 2021   |

# **Capital Improvement Program MRF - Replacement of Valve Actuators**

**Description:** Replacement of tertiary effluent valve actuators.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

Project: 2021100015 Funding Source: 100% Fund 250 - Reclaimed

**Comments:** The tertiary effluent valve actuators constantly modulate the effluent valves to maintain the tertiary filter level. This constant modulation puts excessive wear on the actuator and over time the actuator will wear out. These actuators are over ten years old and need to be replaced. Replacing the current actuators with the more industrial actuators will provide a much longer lifespan and provide more accurate valve operation and positioning.

**Operations Impact:** Improve the precision of the valves' position and provide a longer lifespan of the modulating actuators.

### **Project Spending Plan**

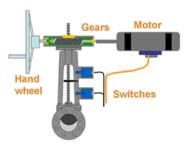

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

### Capital Improvement Program MRF - Flow Control Valve and Actuator

**Description:** Installation of a valve and actuator for primary skimmer failures.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

**Project:** 2021100016 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: In the event of a primary skimmer failure in a skimming position, water would be allowed to flow unrestricted to the solids wet well. The high volume of water and skimming material would overflow the solids wet well. This prevents Meadowlark staff from being able to keep the primary skimming system running in auto 24/7. Staff currently places the primary skimmers in the off position at the end of working hours. This creates a buildup of scum and debris which in turn leads to offensive odors, septic conditions, and a potential increase of loading on the system. The buildup of scum and debris that accumulates after hours requires more staff time to skim and clean. The installation of the actuator and valve in the primary skimmer line would allow for the remote isolation of the line during a skimmer failure. With the actuator and valve in place, the primary skimming system would be able to run in automatic operation 24/7. Response to an after hours primary skimmer failure with the valve and actuator in place would eliminate potential spills from the solids wet well.

**Operations Impact:** The installation of the valve and actuator will improve operations and help to control odors.

#### **Project Spending Plan**

# Capital Improvement Program VWD Headquarters: Asphalt Repair & Sealcoat

**Description:** Repair the damaged asphalt and apply sealcoat at the VWD Headquarters.

Project Manager: Kevin Anctil

Department: Construction

**Project:** 2021100017 **Funding Source:** 51% Fund 110 – Water Replacement 49% Fund 210 - Sewer Replacement

**Comments:** The VWD main facility, including the customer parking area and Operations yard, needs asphalt repair and sealcoating. The asphalt in the Operations yard has areas that are damaged and need to be repaired. The damaged areas will be repaired and the entire facility will be sealcoated to protect the asphalt and extend its useful life. The striping for parking areas will be performed after the sealcoating is completed.

**Operations Impact:** This work will be completed on the weekend to limit impact to customers, employees and normal operations.

### **Project Spending Plan**

## Capital Improvement Program SSO Training Facility

**Description:** Installation of an SSO (Sanitary Sewer Overflow) Training Facility in the VWD yard.

Project Manager: Eric Garcia Department: Construction

**Project:** 2021100018 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: The SSO (Sanitary Sewer Overflow) Training Facility in the VWD yard will be used for training Wastewater Collection Systems crews how to respond during an SSO. It will help them prepare for a real event by determining the flow in gallons per minute (GPM). It will also be used to train the crew in how to respond, set up traffic control, and to evaluate the best methods, equipment, and materials needed to contain and recover an SSO. How to clean up and properly document the event will also be a part of this training. The Regional Water Quality Control Board requires this training and documentation on how we estimate the SSO flow in GPM. This training facility will assist us in providing a more accurate total volume estimation during an actual SSO by observing a controlled and metered release at various flow rates.

**Operations Impact:** This will help train the Wastewater Collection Systems crews on SSO response and estimations.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

## **Capital Improvement Program MRF - Fall Protection Grating Installation**

**Description:** Fall protection grating to be installed in the primary clarifier access hatches.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

**Project:** 2021100019 Funding Source: 100% Fund 210 – Sewer Replacement

**Comments:** The primary sedimentation basins at the Meadowlark Reclamation Facility (MRF) have numerous access hatches of various sizes. The hatches serve as an access point for maintenance and cleaning. Opening a hatch creates a fall hazard requiring some form of fall protection. With grating and supports installed, staff can safely open the hatches as needed without the need for any further fall protection devices. Without the grating, staff will need to purchase, install, and maintain a fall arrest system in order to perform normal operational duties at the primary basins. These systems are cumbersome and are required to be reconfigured each time a hatch is opened. The fall protection grating creates a walking surface which will prevent staff from falling into a basin.

**Operations Impact:** The installation of the grating will provide a safe working surface for staff.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

| Planning      |                      |          |          |          |          |                          |          |
| Design        |                      |          |          |          |          |                          |          |
| Construction  |                      | \$37,000 |          |          |          |                          | \$37,000 |
| Total         | \$0                  | \$37,000 | \$0      | \$0      | \$0      | \$0                      | \$37,000 |

FY 2020/21 Budget Request - \$37,000

| Project Approval | Planning |     | Design |     | Construction |     | Completion |
|------------------|----------|-----|--------|-----|--------------|-----|------------|
|                  | Begin    | End | Begin  | End | Begin        | End |            |
| Jul 2020         |          |     |        |     |              |     | Jun 2021   |

## **Capital Improvement Program Meadowlark FCF - Water Quality Analyzer**

**Description:** Installation of an analyzer that will provide real-time water quality data via the District's SCADA system.

Project Manager: Shawn Askine Department: Water Operations

**Project:** 2021100020 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** Staff will be installing a water quality analyzer at the Meadowlark Flow Control Facility (FCF). This device will give the Water Distribution Operators the ability to monitor water quality continuously and provide real-time information concerning the water distribution system. Staff has been working with a vendor to develop a system for Vallecitos that measures chlorine residual and pH. The package also includes a sample return pump. This analyzer does not use chemical reagents which allows the water to be returned to the distribution system. State regulations prohibit chlorinated water to be released to the storm drain. Returning the sample water to the distribution system keeps the District in compliance with discharge requirements and recently enacted water conservation regulations.

**Operations Impact:** Continuous monitoring of water quality in the distribution system.

### **Project Spending Plan**

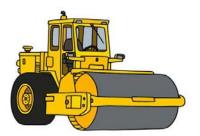

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

# Capital Improvement Program Richland Tank II: Asphalt Repair and Sealcoat

**Description:** Repair the damaged asphalt and apply sealcoat at the Richland Tank II site.

Project Manager: Kevin Anctil

Department: Construction

**Project:** 2021100021 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** Repair damaged areas and sealcoat the asphalt at the Richland Tank II site. The asphalt has cracks, root damage and potholes. The asphalt patches will be completed and then the area will be sealcoated to extend the life of the asphalt.

**Operations Impact:** No impact to operations.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

## Capital Improvement Program Twin Oaks Reservoir - Safety Climb System

**Description:** Install ladder climbing system on the salt tank at the Twin Oaks Reservoir Facility to provide a safe work environment for staff.

Project Manager: Shawn Askine Department: Water Operations

**Project:** 2021100022 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** The existing ladder climbing system on the salt tank at the Twin Oaks Reservoir Facility does not meet the current code for climbing and fall protection. The tank access port is at the top of the tank and access to this port is done periodically to observe salt level distribution and during salt deliveries. The new ladder climbing system will have the proper climbing devices and will include a railing at the top of the tank to provide a more secure and safe system as the port is being accessed.

**Operations Impact:** Improved safety for staff while accessing the top of the salt tank.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

### **Capital Improvement Program MRF - Aeration Influent Channel Mixing**

**Description:** Installation of an air mixing system in the roughing filter effluent (RFE) channel and the return activated sludge (RAS) channel.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

**Project:** 2021100023 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: The RFE and RAS channels develop a scum buildup that creates an offensive odor and allows for the buildup of fly eggs and larvae. The channels have dead zones that produce septic conditions and solids buildup. This buildup of scum and septic conditions has a negative effect on plant processes by decreasing aerobic conditions in the RAS, increasing unwanted filament and sulfur producing bacteria. This increases air demand in the aeration basin which increases operational costs. Staff currently has to wash down the channels on a regular basis to remove the buildup. This labor intensive routine produces minimal results and the buildup returns within hours. The installation of air mixers will eliminate the buildup, remove the cause of unfavorable process conditions and minimize operational costs. The addition of air mixers will also improve the odor control program at Meadowlark.

**Operations Impact:** The addition of the air mixing system will improve Meadowlark's aeration process, increase operation efficiency, and improve odor control.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

### **Capital Improvement Program MRF - AT&T Phone Line Relocation**

**Description:** Relocate the AT&T phone line into the Meadowlark Reclamation Facility.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

**Project:** 2021100024 Funding Source: 100% Fund 210 – Sewer Replacement

Comments: SDG&E relocated their power line into the Meadowlark Reclamation Facility (MRF) from their power poles to an underground conduit. AT&T's phone line is on the same power poles and needs to be placed underground as well. SDG&E provided a conduit for AT&T up to the transformer at MRF. AT&T needs to add additional conduit from the transformer to the power pole. Once this conduit has been installed, AT&T can remove their line from the pole and connect to the existing line that goes underground. All power poles can then be removed from MRF's lower road. This project pays for the portion that is owned by Vallecitos.

**Operations Impact:** The AT&T phone line into the plant will be more reliable during severe weather conditions.

### **Project Spending Plan**

| Project Phase | Previous<br>Spending | FY 20/21 | FY 21/22 | FY 22/23 | FY 23/24 | FY 24/25 &<br>Thereafter | Total    |

# **Capital Improvement Program Mahr - Salt Tank Ladder Climbing System**

**Description:** Replace ladder climbing system on the salt tank at Mahr Reservoir.

Project Manager: Dawn McDougle Department: Meadowlark Reclamation Facility

Project: 2021100025 Funding Source: 100% Fund 250 - Reclaimed

**Comments:** The existing ladder climbing system on Mahr's salt tank does not meet the current code for climbing and fall protection. The tank access port is at the top of the tank and access to this port is done periodically to observe salt level distribution and during salt deliveries. The new ladder climbing system will have the proper climbing devices and will include a railing at the top of the tank to provide a more secure and safe system as the port is being accessed.

**Operations Impact:** Improved safety for staff while accessing the top of the salt tank.

### **Project Spending Plan**

# Capital Improvement Program Richland Tank I: Asphalt Repair and Sealcoat

**Description:** Repair the damaged asphalt and apply sealcoat at the Richland Tank I site.

Project Manager: Kevin Anctil Department: Construction

**Project:** 2021100026 Funding Source: 100% Fund 110 – Water Replacement

**Comments:** Repair damaged areas and sealcoat the asphalt at the Richland Tank I site. The asphalt has cracks, root damage and potholes. The asphalt patches will be completed and then the area will be sealcoated to extend the life of the asphalt.

**Operations Impact:** No impact to operations.

<sup>(1)</sup> The District issued Refunding Revenue Bonds on July 1, 2015, to prepay a portion of the previously outstanding COPS Series 2005A. The bonds have a 5% interest rate over the 20-year term.

405

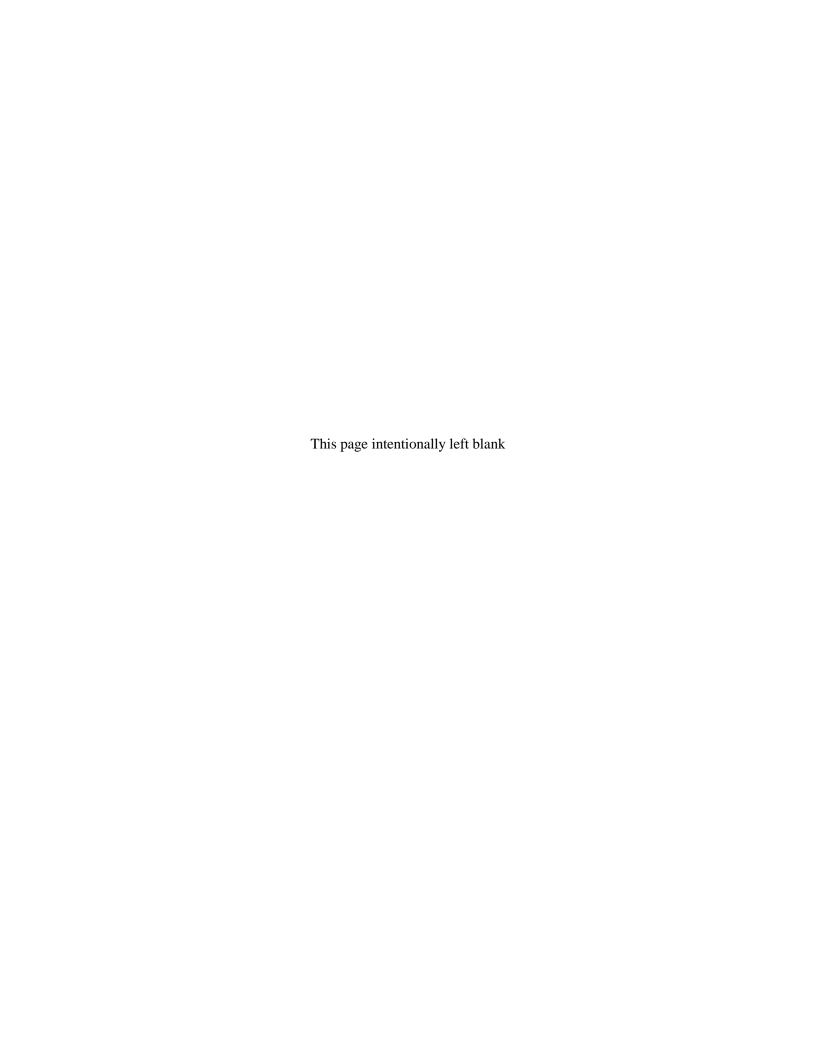

Days of Operating Expenses in Unrestricted Cash and Investments

<sup>(2)</sup> The 20/21 principal payment on the refunding bonds is due to bondholders on July 1, 2020. The District is obligated to transfer the payment before June 30, 2020, to a restricted account maintained by the Trustee, and, therefore, was deducted from the projected July 1, 2020 balance presented in the Reserve Budget.

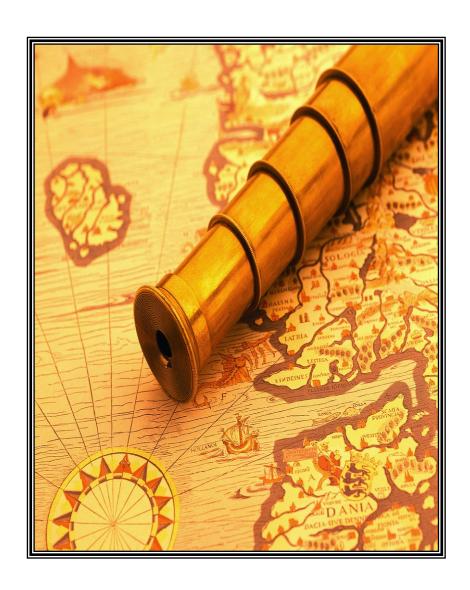

<sup>(3)</sup> The District and Union Bank of California executed an \$8 million 20-Year tax-exempt private placement with variable rate interest tied to the LIBOR. The District has the option of changing the LIBOR term. The current term is six months. The current rate is 1.072%. The proceeds partially restored a deficit balance in the restricted wastewater capacity fund from cash funding construction of the Encina Wastewater Authority Phase V expansion.

<sup>(4)</sup> The District issued bonds on December 21, 2012, to fund the increased capacity portions of San Marcos Interceptor and Linda Vista Sewer projects. The bonds have a 1.98% interest rate over the 10-year term.

<sup>(5)</sup> Per the 2015 Refunding Revenue Bonds official statement, the District is required to maintain a debt service coverage ratio of 1.15. Debt service coverage ratios are presented above inclusive and exclusive of capital facilities fees to demonstrate the District's ability to cover debt service above the required minimum. Capital facility fees are included in the official statement's definition of "Net Revenues".

#### Significant Assumptions

**Operating Transfers** - the result of operating activity transferred from the disbursements fund during the year. Operating transfers from FY 2025 through 2029 will increase by 2%.

**Rates** - Combined water and sewer rates for the average single family resident are estimated to increase by 3.5% each year the first 2 years with estimated increases of 3.5% to 4.0% January 1, 2023 and beyond.

**Operating Expense Assumptions** - Over the next five years, cost of wholesale water commodity will increase by 26% and wholesale fixed charges will increase 24%. Power, fuel, and chemical costs will increase by 4.5% per year, while most other operating costs will increase by 2% from year-to-year on average. The District will add 100 to 120 water accounts in 2020/21, and 100 to 120 in 2021/22 and every year thereafter. The District will add 100 to 120 sewer accounts in 2020/21 and approximately 100 to 120 in 2021/22 and each year thereafter.

Capital Facility Fees – The District will collect capacity charges for 200 water EDUs in fiscal year 2020/21 and between 225 and 300 EDUs in each fiscal year, 2021/22 through 2024/25. The District will collect capacity charges for 250 sewer EDUs in 2020/21 and between 250 and 425 sewer EDUs from 2021/22 through 2024/25. The rate per EDU will increase by the ENR each year.

Property Tax - revenue from the 1% allocation will increase by 2.15% each year.

Investment Earnings - assumed at 1.9%.

Capital Outlay scheduled after Fiscal Year 2025 will be expended evenly over six years.
